On Part VI – Bid Specifications

Add additional paragraph to A. Scope:

Clark County has made this bid subject to Washington State statute RCW 39.34. Therefore the bidder may, at the bidders' option, extend identical prices and services to other public agencies wishing to participate in this bid. Each public agency wishing to utilize this bid will issue a purchase order (or contract) binding only their agency. CHANGES:

During contractor equipment inspections, we are now aware of a number of category 1 and category 5 test that are past due. Also, it was noted that a number of repairs are needed on the equipment.

Clark County will attempt to get the repairs and tests completed and up to date before the start of the new contract. If Clark County does not get the current contractor to complete these tests and repairs, the County will inspect the equipment with the new contractor and treat this work as outside the normal maintenance requirements.
