

General Government

Assessor

Department Summary

The Assessor is responsible for the appraisal of all real and personal property in the County for the purpose of taxation. Under Clark County's annual appraisal system, one-sixth of the parcels in the County must be physically inspected and re-appraised each year. The assessed values of the remaining parcels are reviewed and updated to market value. The department certifies tax levies made by all taxing districts in the County.

Cable Television

Department Summary

The County's responsibilities for cable television franchise administration, as well as public affairs and government programming, are carried out by the Clark/Vancouver Cable Office (CVTV), a City-County joint venture. The City of Vancouver is the fiscal agent for the office, so the County budget reflects only the payment to the City for cable services. The Clark/Vancouver Cable Office provides full service video production facilities and regularly produces programs for the County. Examples include the monthly "Clark County Closeup" program, a 30-minute magazine format program on County services and issues; and "Clark County Focus," a 30-minute monthly studio discussion program.

Clark County Fair Fund

Department Summary

During 2004, management of the fairgrounds was transferred to a private, non-profit Fair Site Management Group (FSMG). This group oversees all budgetary, event and operations of the fairgrounds, except the ten day county fair, which remains under the direction of the Fair Association. A 100,000 square foot Exhibition Hall was completed in 2005.

Customer Service County-Wide

Program Summary

A major emphasis of the County Administrator has become Customer Service. In 1995 the Board of County Commissioners approved a customer service policy indicating that "Clark County is committed to providing ongoing quality service to all of our customers. The County recognizes that to achieve this goal, our employees must have to tools and authority to take personal responsibility for providing customer service."

GIS Consulting Services

Operational Planning Categories

Program Summary

Consulting Services include database design, data entry, and the development of applications such as ClarkView. Consulting Services differs from the Storefront in that these are larger projects requiring weeks or months of staff time. The goal of many Consulting Services projects are to automate processes and improve work flow throughout the County. ClarkView is an example of a project that has improved customer service by increasing the timeliness and quality of information provided. The products derived from Consulting Services are often made available to a wider audience through the Storefront.

\$792,448

Program Summary

The core purpose of the GIS department is the creation and maintenance of the GIS database. County departments depend on this database for a wide range of planning and tracking programs. The database is an important component of the County's information infrastructure. The GIS department currently maintains over 200 layers of information. GIS Database Management includes the cost of hardware, software, and the staffing required to build and maintain the GIS.

GIS Storefront

Program Summary

The GIS Storefront is responsible for creating and selling standardized and custom maps to County departments and the public. The Storefront is a fee-for-service provided as a public service to the County. The sale of quarter-section maps and the road atlas have been the biggest source of revenue in the past. It is anticipated that the sale of ClarkView and other software developed by the GIS department, and the sale of the digital data to support the software will significantly increase the revenues generated by the GIS Storefront.

The GIS Storefront plays an important role in Clark County's public perception. The ClarkView product presents the taxpayer with a wealth of accurate, useful information in an easy to understand format. The Clark County Atlas, Road Map, and Bike Map are recognized as high quality products throughout the region. The Storefront continues to develop in response to requests for services and data products utilizing the GIS database.

Treasurer

Department Summary

The County Treasurer plays a major role in local government finance. The Treasurer is the custodian of all funds for the county and governmental subdivisions. The Treasurer's Office operates much like a bank. The Treasurer is responsible for:

- collecting real and personal property taxes (including performing foreclosure and personal property distraint activities on delinquent accounts), special assessments, excise tax, gambling taxes, and miscellaneous receipts from other county districts and departments;
- accounting for all funds and deposits of revenue for the state, county, cities, and junior taxing districts (schools, ports, cemeteries, fire, drainage, and the Clark Public Utility):
- determining funds have adequate cash and authorizing the release of warrants for payment to vendors;
- administering short and long-term debt financing;
- managing the cash flow (liquidity) of the county, and investing funds not needed for immediate expenditures for the county and junior taxing districts;
- coordinating bank services and facilitating financial planning within and between the county and various taxing districts.

Tax Service

Program Summary

The Tax Service Department is divided into three sections: Customer Service, Data Management and Collections. The customer service section works to communicate with all customers in a courteous manner while receipting, posting and if applicable refunding overpayments of taxes, assessments, fees and general deposits. Data Management is committed to ensuring the integrity and accuracy of each database maintained within the county that affects data utilized and reported by the Treasurer. Delinquent property taxes, gambling taxes, various assessments and fees billed by the county are collected by the Collections section, as well as returned items for many county departments.
