

Major Home Business

Handout #45-B Revised: 08/24/09

What is a Home Business?

Home businesses are commercial activities carried on within a dwelling by a member or members of the family who occupy the dwelling. The home business is secondary to the use of the dwelling for living purposes, and the residential character of the dwelling must be maintained.

In Clark County, home businesses must be owned and operated by the resident owner or renter. If more than one home business is operated out of the home, all businesses in combination must not exceed the applicable standards. Uses that are otherwise listed as permitted outright, a conditional use, or a use subject to review and approval under the zone in which the property is located, cannot be approved under the home business ordinance.

Do all Home Businesses need a Home Business permit?

If your business has a minimal impact to the neighborhood, and is limited to the following standards, a home business permit from the county is not required. **However, a building permit may be required:**

In urban areas:

- A maximum of 25% of gross floor area or 1,000 square feet (whichever is less) of the dwelling and attached garage may be used for the business (see Attachment A -1 for "gross floor area" definition);
- No use of accessory structures for minor home business, and 900 s.f. major home business and;
- Maximum of 2 employees who come to the home business location, with one parking space on-site for each non-resident employee;
- No customers that come to the home business location;
- No outside storage;
- No heavy equipment; no more than one home business-related vehicle;
- No on-site retail sales; and,
- No more than one sign related to the home business of 2 square feet or less.

In rural areas:

- A maximum of 25% of gross floor area or 1,000 square feet (whichever is less) of the dwelling and attached garage may be used for the home business (see Attachment A -1 for "gross floor area" definition);
- Use of up to 400 square feet of an accessory structure;
- Maximum of two employees who come to the home business location, with one parking space on-site for each non-resident employee;
- No customers that come to the home business location;
- No outside storage;
- No heavy equipment; no more than one home business-related vehicle; and, no on-site retail sales; and,
- No more that one sign related to the home business of 2 square feet or less.

Note:

- There is no minimal lot size for exempt home businesses; and,
- Two or more exempt home business on the same parcel require application for a Type I or II Home Business permit if the combined features of each business exceed the above standards.

What is the difference between a minor and major Home Business?

The review process depends on whether you are in the urban or rural areas, and the extent of the impacts the business may have on the neighborhood. The distinctions are summarized below:

Minor Home Business Urban	Minor Home Business Rural
A maximum of 25% of the gross floor area or 1,000 square feet (whichever is less) of the dwelling may be used for the home business	A maximum of 25% of the gross floor area or 1,000 square feet (whichever is less) of the dwelling may be used for the home business

Note: On-site retail (other than incidental), adult entertainment enterprises as defined in Clark County Code, Chapter 5.45, automotive recycling material facilities, and in urban areas, new facilities for servicing motor vehicles are prohibited.

Are there other permits that may be required? Yes, in most cases.

Building Permit

Depending upon your home business situation, you may need a residential or commercial building permit.

Residential Building Permit:

If your home business is to be located inside the home or in an attached garage, and the area used for the home business is 500 sq ft or greater, a Residential Building Permit is required.

The area used for a home business that are used by employees or customers are required to meet the American Disabilities ACT (ADA) standards, including parking, accessible route and entry under Section 3409 of the International Building Code (IBC). Home businesses over 500 square feet will be required to comply with all applicable provisions of the 2006 International Building Code (IBC), Section 3409 Accessibility to Existing Buildings

Commercial Building Permit:

If your home business is to be located in a structure that is detached from your home or the structure, addition, or space used for home business is over 500 sq ft, a commercial building permit will be required.

The area used for a home business that are used by employees or customers are required to meet the American Disabilities ACT (ADA) standards, including parking, accessible route and entry under Section 3409 of the International Building Code (IBC). Home businesses over 500 square feet will be required to comply with all applicable provisions of the 2006 International Building Code (IBC), Section 3409 Accessibility to Existing Buildings

Before the home business owner applies for a home business permit, they should meet with a Plans Examiner and Permit Services Specialist at the Clark County Permit Services Center to determine the extent of building permit requirements.

For more information call 397-2375, ext. 5019.

For more information on ADA call 397-2375, ext 4349 or 4177

Please note: Home business applications & building permits must be submitted at the same time.

Fire Marshal

Approval from the Fire Marshal will be required If your home business is a non-office type of work (e.g., wood working or other types of manufacturing), Call (360) 397-2375, ext. 3396 for more information.

State Electrical (i.e., Labor & Industries)

The State conducts all electrical plan reviews and inspections for the county. For all electrical work, call (360) 896-2300.

Critical Areas

If you are proposing to construct new buildings or commence home business activities within an environmental critical area, additional permits may be required. Such critical areas include: shoreline management, critical aquifer recharge area (CARA), geo-hazard, floodplain, wetland and habitat. Contact the Permit Services Center.

Health Department

If the home business will be utilizing a septic or water well system, you should consult with the Health Department. Call (360) 397-8428 for more information.

Is outside storage of home business related items allowed?

Outside storage is allowed only for Major Rural Home Businesses. The storage area must be screened from public view. The required screening must meet the county's L3 landscaping standard which is defined as:

"The L3 standard provides physical and visual separation between uses or The L3 standard requires enough high shrubs to form a screen six (6) feet high and ninety-five percent (95%) opaque year around. In addition, one tree is required per thirty (30) lineal feet of landscaped area or as appropriate to provide a tree canopy over the landscaped area.

"Groundcover plants must fully cover the remainder of the landscaped area. A six (6) foot high wall or fence, with or without a berm, may be substituted for shrubs, but the trees and groundcover plants are still required. When applied along street lot lines, the screen or wall is to be placed along the interior side of the landscaped area."

Are there additional requirements if I live on a private road?

Under the Type II review process, the county will visit the site and may require certain roadway improvements to ensure dust, noise, trip generation, and road safety and maintenance are adequately addressed.

What is the application process?

Staff at the Permit Services Center, located at the Public Service Center, 1st Floor, 1300 Franklin Street, Vancouver, Washington, will assist with the application process.

For a Major Home Business, the first step is to determine if a State Environmental Policy Act (SEPA) environmental checklist must be submitted. Generally, if your Home Business proposes the following, a complete SEPA checklist must be submitted with your application:

Activity	Urban	Rural
Parking spaces	40 spaces or more	20 spaces or more
Agricultural buildings	10,000 Square Feet or more	10,000 square feet or more
Commercial, office, school, recreation, storage/served buildings	12,000 square feet or more	4,000 square feet or more
Grading	500 cubic yards or more	500 cubic yards or more

Also, if any proposed activity will take place in any of the following critical areas, a critical area permit (e.g., Shoreline or Habitat permit) and a SEPA review is required:

- Shoreline
- Unstable Slopes
- Slopes over 40%
- Floodplain
- Wetlands
- Habitat

Permit Services staff will assist the applicant in determining if a SEPA checklist is required with the application. The SEPA Review Application Form and Environmental Checklist are available at the Permit Services Center.

Once the SEPA checklist is completed, submit the application package to the Permit Services Center to include:

- Completed checklist (if required);
- Completed and signed application form;
- For Urban Home Businesses:
 - Completed and signed “Application Agreement and County Decision” form, and
- For Rural Home Businesses:
 - Submittal of all items listed on the “Major Home Business Rural Submittal Requirements” (see Attachment B-6);
- For Major Home Businesses on a private road:
 - Submittal of all items listed on the “Home Business Private Road Access Review Submittal Requirements” (see Attachment B-7)
- Application fee(s).

A decision on the application will be made within 78 days from the date the application is deemed Fully Complete.

Note: A pre-application conference is not required for a Home Business request.

What is a SEPA Checklist and what is its purpose?

The State Environmental Policy Act (SEPA) requires that a review of the potential environmental impacts of the proposed developments be conducted. County staff and interested agencies will review the home business application to determine compliance with applicable Federal, State and County Code. A determination will then be made as to whether the impacts will be considered such as: Non-significance (DNS), mitigated non-significance (MDNS), or significance (DS). For a DNS or MDNS determination, an analysis will be incorporated within the Staff Report & Decision referenced below. If a DS determination is made, the applicant is required to prepare an Environmental Impact Statement (EIS) prior to the County considering the proposed home business. The SEPA determination is then published in "The Columbian" newspaper.

What if I didn't submit all of the required information?

For Major Home Business (Type II review) applications, the County conducts two application checks to ensure that applications are complete before staff begins their development review process. Prior to accepting your application over the counter, the Permit Services staff will conduct a "**Counter Complete**" review of your submittal packages. This initial review ensures that **all items with a bold underlined space** listed within the Major Home Business review submittal requirements have been submitted before accepting your application (see attached submittal lists).

Once your application is accepted, the original submittal package is routed to our review staff. Staff conducts a second completeness check, known as the "**Fully Complete**" review. This more detailed review ensures that **all items with a box to the left** listed under the numbered headings of the attached submittal requirements have been submitted. As an example, does the "Site Plan" include the "Location and dimensions of all structures, outside storage areas and activity areas?"

If required items are missing from your original submittal, you will receive a letter of "Not Fully Complete," with a list of the missing items. If you have not submitted the requested information within 30 days of this written request, staff will return your application and refund the application fee, less the processing costs incurred to date.

If **all** of the submittal requirements have been met, you will receive a "Fully Complete" determination letter and the technical review will begin.

What kind of public notice is provided?

For Major Home Businesses, a public notice describing the proposal will be mailed to property owners within a 300' radius of the project (if within an urban growth boundary) or a 500' radius of the project (if outside an urban growth boundary), the area neighborhood association representative, and to the applicant. Notice will also be posted in the Columbian newspaper. This notice is mailed within 14 calendar days from the "Fully Complete" date.

The notice will invite written comments to be submitted within 14 calendar days of the date of the notice. Copies of any written comments received in a timely manner will be sent to the applicant. The applicant may submit a written response to the comments received within 14 days from the date the comments are mailed to the applicant.

Who makes the decision and when will it be made?

For major Home Businesses (Type II review), a decision by the Responsible Official will be mailed to the applicant within 78 days of a Fully Completed determination.

Can the decision be appealed?

The Responsible Official's decision may be appealed to the County Hearings Examiner by the applicant or any person or group. An appellant must submit an appeal application and **\$5,240** (Planning =\$4,826; Engineering = \$414) fee within 14 calendar days after the written notice of the decision is mailed.

What are the Home Business Application fees?

The following fees apply to home business applications.

Major Urban Type II Review without private road access	\$2,696
Major Urban Type II Review	\$2,696
Plus: private road access	\$654 (Planning = 532 + Engineering = \$122)
Major Rural Type II Review	\$2,696
Plus: private road access	\$654 (Planning = 532 + Engineering = \$122)
Plus: activity area screening	\$532
Other fees (if applicable)	
SEPA	\$1,528
Fire Marshal*	\$434
CARA permit**	\$1,378

* Approval from the Fire Marshal will be required If your home business is non-office type of work (e.g., wood working or other types of manufacturing).

** Certain activities can have a negative impact on groundwater such as vehicle service and repair shops, auto wrecking, storage of hazardous substances, and similar activities and are required to receive approval under a Critical Aquifer Recharge Area (CARA) permit prior to issuance of a Home Business Permit.

Please Note:

- Approval of this application does not constitute approval of modification to existing driveways or construction of a new driveway. Construction of a new driveway or modification to an existing driveway requires a "Driveway Approach Permit," which is issued at the Permit Services Center; and,
- This handout is not a substitute for county code. For more detailed information, please refer to Clark County Code Section 40.260.100 Home Businesses.

Home Business Definitions

Activity area - See home business activity area.

Gross Floor Area - includes basement and attached garage, but does not include an unfinished attic or a detached garage.

Heavy equipment - means any free-standing piece of equipment with a gross vehicle weight of 15,000 pounds (as defined by the manufacturer) or greater that is used for the purpose of a home business and that is typically transported to a job site by a vehicle. The term shall include equipment that is motorized or non-motorized, stationary, or self-propelled. Tools or pieces of machinery that are permanently located within an accessory structure shall not be counted as heavy equipment for the purposes of this section. 3. Home business. Home business means a business in conjunction with a residential use which results in financial remuneration from a product or service and is conducted by at least one resident occupying the dwelling on the subject property.

Home business activity area - (hereafter activity area) means a defined outside area used in conjunction with a home business that includes all outside activities associated with the home business, including, but not limited to parking areas used for business vehicles and equipment, areas used for loading and unloading, worker or client parking areas, and areas used for outdoor storage.

Incidental retail sales - means retail sales that are ancillary and secondary to the home business, such as selling shampoo from a home hair salon.

Outdoor Storage - means the outdoor holding of any materials or merchandise, whether covered or uncovered, used or associated with a home business.

Trailer - is a non-motorized vehicle that is licensed for road use that is used exclusively, or in part, for the purpose of a home business. Trailers equipped by the manufacturer as combination tractor-trailers shall not be counted as a separate trailer, but shall be considered together with their tractor a part of a single vehicle.

Vehicle – (for the purposes of this ordinance) means any motorized vehicle licensed for road use that is used exclusively, or in part, for the purpose of a home business. A vehicle equipped by the manufacturer to serve as a combination tractor-trailer shall be counted as a single vehicle.

Attachment B-3

L3 Screening Standards

Intent The L3 standard provides physical and visual separation between uses or development principally using screening. It is used where such separation is warranted by a proposed development, notwithstanding loss of direct views.

Required Materials The L3 standard requires enough high shrubs to form a screen six (6) feet high and ninety-five percent (95%) opaque year around. In addition, one (1) tree is required per thirty (30) lineal feet of landscaped area or as appropriate to provide a tree canopy over the landscaped area. Groundcover plants must fully cover the remainder of the landscaped area. A six (6) foot high wall or fence that complies with an F1 or F2 standard (see Figure 40.320.010-6 and Figure 40.320.010-7 below) with or without a berm may be substituted for shrubs, but the trees and groundcover plants are still required. When applied along street lot lines, the screen or wall is to be placed along the interior side of the landscaped area (see Figure 40.320.010-3 below).
