Text:

We want your input!

As you're reviewing the information developed through the Committee, please consider the following areas:

Strategies

- Are there any other strategies that you feel should be added to our list, or any that should be removed? If so, which ones

Comments

- Do you have strategies that you feel should be prioritized? If so which ones?

Comments

Lands/Properties *(we will likely need a map on which they could mark their areas as well as a way to identify each of the areas)*

- Are there other properties/areas that should be included for consideration or properties/areas that we should remove from consideration?

Comments

- Are there properties you feel carry a higher level of importance than others? If so, which area or areas?
