- III. GENERAL & NEW BUSINESS**
 - A. Approval of Agenda for October 30, 2008
 - B. Communications from the Public
- IV. PUBLIC HEARING ITEMS & PLANNING COMMISSION ACTION:**
 - A. REVISIONS TO CLARK COUNTY'S STORMWATER AND EROSION CONTROL ORDINANCE AND WATER QUALITY ORDINANCE:**

The Department of Ecology issued a Phase 1 Municipal Stormwater Permit to Clark County effective February 16, 2007. The permit authorizes stormwater discharges to surface and ground waters of the state pursuant to State of Washington Water Pollution Control Law RCW 90.48 and the Federal Water Pollution Control Act (The Clean Water Act), Title 33 United States Code, Section 1251 et seq. The permit includes many new requirements that must be met by Clark County, including revised stormwater regulations.

In May 2007, Clark County began updating the stormwater ordinances to meet the requirements of the permit. The county formed a stakeholder advisory committee (SAC) and a Technical Advisory Committee (TAC), made presentations to small groups, conducted open houses throughout the county, and developed and maintained a website for the project.

The ordinances, if adopted, would replace the current stormwater and erosion control ordinance CCC Chapter 40.380 in its entirety and modify the water quality ordinance CCC Chapter 13.26A, wetland ordinance CCC Chapter 40.450, and CCC Section 40.100.070, Definitions. This hearing will consider the proposed ordinances.

The draft stormwater ordinance consists of: a statement of purpose; a section on applicability; definitions; development standards; and administration processes. The draft ordinances are available on the county's web page at <http://www.clark.wa.gov/stormwater>. Copies of the drafts are also available at Clark County Public Works, 1300 Franklin Street, 4th Floor, Vancouver, Washington.
