WHAT IS HAZARDOUS WASTE?

Household hazardous waste (HHW) products include pesticides, paints, solvents, batteries, thinners, motor oil, and antifreeze. Look for signal words such as poison, danger, warning, caution or flammable on the label. To dispose of your HHW products:

DO:

- Keep HHW products separate. Do not mix.
- Bring products in their original containers when possible.
- Seal products to prevent leaks and spills.
- Keep products away from the driver and passengers, such as in a trunk, truck bed, or trailer.
- Keep children and pets away from collection sites and events.

DO NOT:

- Exceed 25 gallons or 220 pounds of HHW per visit.
- Bring unlabeled, empty or leaking containers, explosives or ammunition, radioactive or infectious waste, or business-generated waste.

For more information, please call (360) 397-6118 ext. 4352.

Composting

Master Composter/Recycler Training and Workshops

Compost is rich in nutrients that help plants to grow, acts to retain soil moisture and can help suppress plant disease. Using compost is good for your soil and can reduce the need to irrigate your garden or use toxic herbicides or pesticides. It's easy to turn your yard debris and kitchen scraps into compost. Just as in nature, leaves and plant debris feed and enrich the soil, you can recycle the food scraps from your kitchen and yard debris back into your soil.

Learn how by attending a Free Backyard Composting Workshop, or Wormshop (\$40 materials fee). The Master Composter/Recycler Program is a volunteer based community program whose mission is to educate the

community about recycling and help keep recyclable materials out of the waste-stream.

Compost bins are for sale at Columbia Springs; The Earth Machine and the Seattle Composter are both \$45.

To purchase a compost bin, find out more about the Master Composter/Recycler Program, or register for a class: call 360-882-0936 x 224, e-mail MCR@columbiasprings.org
