Solid Waste Program

Guiding Principles

- A commitment to sustainability that ensures resources and options for future generations.
- Balance among public convenience, public expenses, public health and the environment.
- Flexibility to anticipate future changes and needs.
- Commitment to waste reduction and recycling.
- Increased local control of solid waste management.
- Integrity of waste stream measurement and monitoring.
- Encouragement of cooperative and coordinated efforts among government agencies, citizens, and the private sector for managing solid wastes.
