**DATE:** March 23, 2016

**SUBJECT:** Year 2016 Reviews for the Year 2015 Current Use  
Assessment Requests (Timberland/Open Space)

---

### BACKGROUND:

The Department of Environmental Services and Clark County Assessor's Office staff have reviewed the Current Use Assessment requests accepted during 2015. The approved requests will become effective during September 2016 for the 2017 calendar year tax statements. As required by Revised Code of Washington (RCW) 84.34.037, Current Use Assessment requests are processed in the same manner as a Comprehensive Plan Amendment. These requests are usually evaluated after receiving the applications late in the calendar year preceding the year of tax assessment to be under Current Use.

All requests for "Timberland" and "Open Space" classification require Planning Commission review, and approval by the Board of Commissioners. This is the 28th year the county has reviewed Current Use Assessment applications. The Timberland classification requires a 5-acre minimum parcel size, exclusive of a one acre home site, and parcels may be transferred from Designated Forest Land or Farm & Agriculture. The stocking and management requirements are enumerated in County Code Chapter 3.08.070. Open Space classification criteria vary according to the category requested. All properties have been evaluated in light of these criteria and are attached to this report.

### 2015 REQUESTS:

The County received 14 total requests for the year 2013 Current Use Assessment. Staff concludes that 0 requests for the Timberland classification fully meet the qualification criteria of Chapter 3.08.070. Staff concludes that 14 requests for Open Space classification meet the applicable criteria of the category chosen under Chapter 3.08 (.040), (.050), (0.55) or (.060), of the Clark County Code.
