

1
2 1.5 Copies of the County's draft 2016 Plan update were submitted to the state more
3 than sixty days (60) prior to final adoption.
4

5 1.6 The County Council and the Planning Commission held a duly advertised joint
6 public hearing on the comprehensive plan update on May 19 and 24, 2016. The
7 Planning Commission held a duly-advertised public meeting on June 2, 2016 to
8 deliberate and make its recommendation to the County Council. The Council held a
9 duly-advertised public hearing on June 21, 2016 to consider the Planning
10 Commission recommendation and to deliberate.
11

12 1.7 The County Council finds that all GMA prerequisites for the revisions in the 2016
13 Plan Update have been met and that the 2016 Plan Update adopted herein achieves the
14 goals and satisfies the requirements of the GMA, as follows:
15

16 1.7.1 Compliance with the Required Elements of the Comprehensive Plan. The
17 2016 Plan Update includes all of the following required elements: Land Use, Housing,
18 Capital Facilities and Utilities, Rural and Natural Resources, Transportation, Economic
19 Development, Parks and Open Space, and Shoreline Policies. In addition, the 2016 Plan
20 Update also contains the following optional elements: Environment, Historic
21 Preservation, Schools, Community Design, Annexation, and Procedural Guidelines.
22

23 1.7.2 Compliance with Resource and Critical Areas Designations and
24 Regulation. The County designated agriculture and forest land on the comprehensive
25 plan and zoning maps, and has provisions in Clark County Code (CCC) Chapter 40.210,
26 Resource and Rural Districts, to adequately protect resource lands. The 2016 Plan
27 Update includes a change in the minimum parcel size for resource lands, as follows:
28

- 29 A. The minimum parcel size on lands zoned for agriculture (AG-20) is reduced
30 from 20 acres to 10 acres (AG-10).
- 31 B. The minimum parcel size on lands zoned for forest (FR-40) is reduced from
32 40 acres to 20 acres (FR-20).

33 The County has considered a number of resources, including Agricultural Preservation
34 Strategies Report, 2010, Rural Lands Study: Assessment of Agriculture and Forestry in
35 Clark County, BERK 2012, and the 2016 update of the Clark County Agriculture and
36 Forest Land Inventory and Analysis (2016, BERK). Clark County has the second highest
37 percentage of very small farms in the State. Family farming is critical to the continued
38 viability of the agricultural community in the County. The authorization for 10-acre lot size
39 will facilitate more affordable owner-occupied family farms. This continues to reflect the
40 unique structure of farming in Clark County. The BERK Reports further document support
41 for the Forest Land lot size.
42

43 To implement this change, property owners may use the innovative zoning technique of
44 clustering as allowed by RCW 36.70A.177(2)(b).
45

46 1.7.3 Public Participation. The public participation requirements of the GMA at
47 RCW 36.70A.140 have been met through an extensive public involvement process that
48 included the following:
49

- 50 • Technical Advisory Committee comprised of planners from the cities,
51 who met monthly to discuss planning issues of a technical nature.
- Three rounds of public meetings (August 2014 (scoping); October 2014

(alternatives); and March/April 2015 (revised alternatives)) on the supplemental environmental impact statement.

- 19 work sessions with and five public hearings before the Planning Commission throughout the update process.
- 23 work sessions with the Council throughout the update process.
- 14 public hearings before the Council to discuss/adopt population and jobs targets, planning assumptions, the vacant and buildable lands model, principles and values, and EIS alternatives.
- Extensive publication on the Clark County Community Planning website, <https://www.clark.wa.gov/community-planning/2016-plan-update>, that included information on the GMA; an outline of the comprehensive plan update process; notices of meetings and hearings; maps of alternatives considered in the SEIS process; meeting summaries and issue discussions; the DSEIS; and the EIS. Also included was a dedicated email address to comment on the 2016 Plan Update as well as an electronic comment form.
- Periodic email announcements sent to a GMA e-mail list of over 1700 addressees, and press releases on the status of the update process.
- Outreach to neighborhood associations and community groups; Several *Clark County Close-up* segments on the 2016 Plan Update process on CVTV; use of a web-based public involvement tool called Engage Clark County to gather comments on comprehensive plan-related topics; and televised public hearings held by the Planning Commission and Council.

1.7.4 Monitoring and Amendment. The 2016 Plan Update provides adequate monitoring and amendment procedures; a procedure to monitor internal and inter-jurisdictional consistency; provisions governing amendments, including that amendments will not be considered more than once each year except as otherwise authorized by law; and an automatic comprehensive review of urban growth areas at least once every eight years.

1.7.5 Record of Process. The County Council and the Planning Commission conducted a duly-advertised joint public hearing on the 2016 Plan Update on May 19 and 24, 2016. The Planning Commission conducted a duly-advertised public meeting concerning recommendations for adoption of the Comprehensive Plan on June 2, 2016. The Council conducted a duly-advertised public hearing on the Planning Commission recommendation and adoption of the Comprehensive Plan on June 21, 2016. All public hearings before the Planning Commission and the Board included opportunities for public comment; and, were transcribed, tape-recorded, and televised locally on cable television. Written transcripts and video and audio tapes are on file, as well as all newsletters, articles, and other publications and all written correspondence received by the County.

1.7.6 Internal Consistency. The 2016 Plan Update is internally consistent. The policies within and among elements are complementary, not contradictory. Both separately and together, they further the goals of the GMA. The land use map represents a detailed analysis carried out in cooperation with individual cities and the business and environmental communities. The analysis and draft land use maps were subject to public scrutiny for several months as the analysis progressed. The Comprehensive Plan contains policies, implementation measures, and procedures which provide for its review and adjustment if internal conflicts are discovered.

1 1.7.7 Individual Site Specific Requests. The County did not consider
2 individual site specific requests for a change in designation and/or zoning as part of
3 the 2016 Plan Update.

4
5 1.7.8 Concurrency. The 2016 Plan Update meets the concurrency requirement
6 of the GMA. The 2016 Plan Update requires direct concurrency for transportation
7 (implemented by the concurrency ordinance which specifies levels of service for identified
8 corridors), for water and for sewer, and the plan includes six and twenty-year project lists
9 for these. The plan also includes project lists for indirect concurrency elements
10 (schools, parks, and stormwater).

11
12 1.7.9 Inter-jurisdictional Coordination. The 2016 Plan Update was accomplished
13 in coordination with the cities of Battle Ground, Camas, La Center, Ridgefield, Vancouver,
14 Woodland and Washougal, and the Town of Yacolt. The County formed a coordinating
15 committee that included each city planning director; that group met monthly throughout
16 the entire update process. The 2016 Plan Update is consistent with adopted countywide
17 planning policies. Countywide planning policies and the Community Framework Plan
18 are included with each plan element.

19
20 1.7.10 Coordination with Other Plans and Agencies. The 2016 Plan Update is
21 coordinated with those of neighboring jurisdictions. Capital facilities plans were
22 produced in cooperation with cities, C-Tran, service providers, public safety agencies,
23 school districts, and metropolitan area planning agencies. An updated parks, recreation
24 and open space plan was adopted by the County in 2015 for the unincorporated portion of
25 the Vancouver UGA. The 2016 Plan Update meets the Southwest Washington Regional
26 Transportation Council (RTC) coordination certification process, requiring RTC indication
27 that the County's Transportation Element has demonstrated consistency with the
28 Regional Transportation Plan for Clark County (RTP, December 2014); and reflects the
29 guidelines and principles under RCW 47.80.026, and satisfy the requirements of RCW
30 36.70A.070(6).

31
32 1.7.11 Analysis of Cumulative Effects. The FSEIS adopted the environmental
33 impact statement prepared on the County's 2007 comprehensive plan update. An
34 analysis of cumulative effects was included in the EIS.

35
36 1.7.12 GMA Goals. The 2016 Plan Update addresses the goals of the GMA
37 through its policies and implementation measures. The 2016 Plan Update also complies
38 with more specific provisions within the GMA. Plan goals and policies which achieve
39 compliance with the GMA in its entirety are also not limited to those cited below in
40 association with the GMA's 13 basic goals.

- 41
42 • **Urban Growth:** *Encourage development in urban areas where adequate*
43 *public facilities exist or can be provided in an efficient manner. The*
44 *Community Framework Plan contains policies that direct growth within the*
45 *region to existing urban areas. The 2016 Plan Update addresses this*
46 *objective most directly through the goals and policies in the Land Use*
47 *Element, as well as the adoption of new urban growth boundaries*
48 *surrounding local cities. Supporting policies and implementation*
49 *measures are contained throughout the 2016 Plan Update.*
50
51 • **Reduce Sprawl:** *Reduce the inappropriate conversion of undeveloped*

1 *land into sprawling, low-density development.* The 2016 Plan Update
2 addresses this objective directly through the goals and policies in the
3 Land Use Element, as well as the adoption of new urban growth
4 boundaries surrounding local cities.
5

- 6 • **Transportation:** *Encourage efficient multi-modal transportation systems*
7 *that are based on regional priorities and coordinated with county and*
8 *city comprehensive plans.* The 2016 Plan Update addresses this most
9 directly through the goals and policies in the Transportation Element.
10
- 11 • **Housing:** *Encourage the availability of affordable housing to all economic*
12 *segments of the population, promote a variety of residential densities*
13 *and housing types, and encourage preservation of the existing housing*
14 *stock.* The 2016 Plan Update addresses this most directly through the
15 goals and policies in the Housing Element, as well as the variety of
16 residential designations contained in the Comprehensive Plan map.
17
- 18 • **Economic Development:** *Encourage economic development*
19 *throughout the state that is consistent with adopted comprehensive*
20 *plans, promote economic opportunity for all citizens of the state,*
21 *especially for unemployed and for disadvantaged persons, and*
22 *encourage growth in areas experiencing insufficient economic growth,*
23 *all within the capacities of the state's natural resources, public services*
24 *and public facilities.* The 2016 Plan Update addresses this most directly
25 through the goals and policies in the Economic Development Element,
26 and through the designation of industrial and commercial lands on the
27 Comprehensive Plan map.
28
- 29 • **Property Rights:** *Private property shall not be taken for public use*
30 *without just compensation having been made. The property rights of*
31 *landowners shall be protected from arbitrary and discriminatory actions.*
32 Clark County's intent in administering the comprehensive plan is to ensure
33 that regulatory actions affecting private property are not arbitrary or
34 discriminatory in any way. The rights of private property owners and the
35 avoidance of any taking of private property without just compensation
36 have been given due consideration in the development of the 2016 Plan
37 Update policies and implementation measures.
38
- 39 • **Permits:** *Applications for both state and local permits should be*
40 *processed in a timely and fair manner to ensure predictability.* The
41 Comprehensive Plan addresses this most directly through the goals and
42 policies in the Housing Element, Rural and Resource Element and the
43 Economic Development Element, and through development regulations
44 that outline specific standardized processes for permit issuance.
45
- 46 • **Natural Resource Industries:** *Maintain and enhance natural resource-*
47 *based industries, including productive timber, agricultural and fisheries*
48 *industries. Encourage the conservation of productive forest lands and*
49 *productive agricultural lands, and discourage incompatible uses.* The
50 2016 Plan Update addresses this most directly through the goals and
51 policies in the Rural and Resource Element and the Economic

1 Development Element, and through specific identification and designation
2 of agricultural, forest, and mineral resource lands. The County's surface
3 mining overlay policies and code were updated in 2014, pursuant to RCW
4 36.70A.170.

- 5
- 6 • **Open Space and Recreation:** *Encourage the retention of open space*
7 *and development of recreational opportunities, conserve fish and*
8 *wildlife habitat, increase access to natural resource lands and water,*
9 *and develop parks.* The 2016 Plan Update addresses this most directly
10 through the goals and policies in the Environmental Element and the
11 Parks, Recreation, and Open Space Element. An updated parks,
12 recreation and open space plan was adopted by the county in 2015 for the
13 unincorporated portion of the Vancouver UGA.
- 14
- 15 • **Environment:** *Protect the Environment and enhance the state's high*
16 *quality of life including air and water quality and availability of water.* The
17 2016 Plan Update addresses this most directly through the goals and
18 policies in the Environmental Element and the Parks, Recreation, and
19 Open Space Element, and development regulations relating to protection
20 of critical areas and shorelines. The County's critical areas ordinances
21 previously have been updated based on best available science pursuant
22 RCW 36.70A.172.
- 23
- 24 • **Citizen Participation and Coordination:** *Encourage the involvement*
25 *of citizens in the planning process and ensure coordination between*
26 *communities and jurisdictions to reconcile conflicts.* Throughout the
27 plan update process Clark County has provided extensive opportunities
28 for citizen involvement and coordination, ranging from community- wide
29 open houses to surveys to formal hearing testimony. The Community
30 Involvement Process is detailed in the Introduction to the 2016 Plan
31 Update, and within this ordinance.
- 32
- 33 • **Public Facilities and Services:** *Ensure that those public facilities and*
34 *services necessary to support development shall be adequate to serve the*
35 *development at the time the development is available for occupancy*
36 *and use without decreasing current service levels below locally-*
37 *established minimum standards.* The Comprehensive Plan addresses
38 this most directly through the goals and policies in the Capital Facilities
39 and Utilities Element and the Schools Element, and the county's
40 transportation concurrency ordinance.
- 41
- 42 • **Historic Preservation:** *Identify and encourage the preservation of lands,*
43 *sites, and structures that have historical or archaeological significance.*
44 The 2016 Plan Update addresses this most directly through the goals and
45 policies in the Historic, Archaeological and Cultural Preservation Element.
- 46

47 In addition, the County's shoreline policies, the GMA's 14th goal, are included in the
48 **Shoreline Policies Element** of the comprehensive plan.

49

50 1.7.13 Compliance with countywide planning policies. As required by the
51 GMA, Clark County participated in discussions with cities within the county to

1 revise urban growth area boundaries, and adopted such boundaries for each city
2 consistent with the countywide planning policies. Further, the county provided
3 notification to surrounding jurisdictions of its 2016 Plan Update development
4 process. The County has achieved consistency with adopted countywide planning
5 policies.

6
7 1.8 The draft 2016 Plan Update was filed with Commerce within the required
8 time frame. Commerce received notice of the county's intent to adopt a comprehensive
9 plan under the GMA on April 29, 2016. Comments were received from Commerce on
10 June 20, 2016. Commerce's comments were considered in the 2016 Plan Update.

11
12 1.9 The County has adequate development regulations in place through Clark
13 County Code Title 40, the Unified Development Code. Adoption of updates to zoning
14 ordinances and other measures necessary to implement the Comprehensive Plan are
15 adopted as part of this ordinance.

16
17 1.10 Capital facilities plans for service providers (including school districts,
18 public safety, parks, water, sewer, and transportation) satisfy GMA requirements, and
19 incorporated into the 2016 Plan Update.

20 21 22 **2. COMPREHENSIVE PLAN ADOPTION**

23
24 2.1 **Adoption of the updated Clark County Comprehensive Plan.** The 2016
25 Plan Update is hereby adopted as the County's current 20-year land use plan and the
26 GMA Comprehensive Plan for Clark County.

27
28 2.2 **Plan Components.** The County Comprehensive Land Use Plan, through
29 the 2016 Plan Update, consists of the following:

30
31 2.2.1 The 2016 Plan Update document and all text and policies contained
32 therein (Exhibit 1), including: Capital Facilities Plan for school districts;
33 transportation; parks, recreation and open space services; water; sewer; sheriff;
34 fire; and stormwater (Appendix E); Clark County Capital Facilities Financial Plan
35 2015-35 (Appendix G); and County transportation analysis (Appendix A).

36
37 2.2.2 An updated map showing plan designations for unincorporated rural
38 and resource lands as well as lands within urban growth boundaries in Clark
39 County (Exhibit 2).

40
41 2.2.3 An updated map showing the corresponding zoning that implements
42 the plan designations (Exhibit 3).

43
44 2.2.4 An updated map showing arterial classifications and cross-sections
45 for roadways within the county's land-use jurisdiction (Exhibit 4).

46
47 2.2.5 The following are incorporated by reference:

- 48 • Vacant and Buildable Lands Analyses for urban growth areas;
- 49 • Traffic impact fee technical memorandum; and
- 50 • Park impact fee technical memorandum.

Lot area, rural	<p>“Lot area, rural” <u>means</u> the computed area contained within the lot lines to include:</p> <ul style="list-style-type: none"> • Private driveway easements, • On-site road easements, • One-half (1/2) width or thirty (30) feet, whichever is less, of abutting public rights-of-way for perimeter streets, excluding limited access state or interstate highways. <p>For the purposes of this definition, “rural lot area” applies to urban reserve (UR-10 <u>and</u> UR-20) <u>and</u> UR-40), <u>and</u> urban holding <u>overlays</u> (UH-10 and UH-20), <u>and</u> UH-40), <u>and</u> rural (R-5, R-10 and R-20), agricultural (AG-1020 <u>and</u> <u>AG-WLAW</u>) and forest resource (FR-2040 <u>and</u> FR-80) districts.</p>
Lot area, urban	<p>“Lot area, urban” <u>means</u> the computed area contained within the lot lines in urban districts, to include private driveway easements, and excluding street and alley rights-of-way, street easements, and street tracts.</p> <p>For the purposes of this definition, “urban lot area” does not apply to the urban holding <u>overlays zones</u> (UH-10 and UH-20). <u>and</u> UH-40).</p>
<u>Neighborhood park</u>	<p>“Neighborhood park” means a public park designed to provide nonorganized recreational opportunities for residents living within a one-half (1/2) mile radius, and are located such that they are within walking and bicycling distance of most users. These parks generally contain three (3) to five (5) acres but may vary in size depending upon unique site characteristics, opportunities and land availability.</p>
<u>Park, Community</u>	<p><u>“Community park” means a public park that provides a focal point and gathering place for broad groups of users. Community Parks are used by all segments of the population and generally serve residents from a one to three-mile service area. Community Parks often include recreation facilities for organized activities such as sports fields, skate parks, and play courts.</u></p>
<u>Park, Neighborhood</u>	<p><u>“Neighborhood park” means a public park designed to provide non-organized recreational opportunities for residents living within a one-half (1/2) mile radius, and are located such that they are within walking and bicycling distance of most users. These parks generally contain three (3) to five (5) acres but may vary in size depending upon unique site characteristics, opportunities and land availability.</u></p>
<u>Park, Regional</u>	<p><u>“Regional park” means a public recreational area that serves residents throughout Clark County, as well as outside the county. Facilities may include sports fields, extensive trail systems, or large picnic areas. Because of their large size and broad service area,</u></p>

	<u>regional parks typically require more support facilities, such as parking and restrooms. These parks are designed to accommodate large numbers of people.</u>
Public facilities	“Public facilities” means facilities which are owned, operated, and maintained by a public agency. <u>This does not refer to the Public Facilities district, which has its own definitions per Section 40.230.090.</u>
<u>Trail</u>	<u>“Trail” means any path, route, way, right-of-way, or corridor posted, signed, or designated as open for non-motorized travel or passage by the general public. Five trail types are identified in the Regional Trails and Bikeways System Plan (2006) and include regional, multi-use trails, local trails, rustic trails, semi-primitive trails, and bike lanes and pedestrian walkways.</u>

4 40.200.040 MINIMUM AND MAXIMUM CALCULATIONS

5
6 *****

7 C. Lot Area Calculations.

8 1. Lot area is the computed area contained within the lot lines.

9 a.4. In the urban area, except for the UH zones, lot area excludes street and alley
10 rights-of-way, street easements, and street tracts.

11 b. In the urban reserve (UR-10 and UR-20) and ~~UR-40~~, urban holding overlays
12 (UH-10, UH-20 and UH-40), and rural (R-5, R-10 and R-20), agricultural (~~AG-20~~ AG-
13 10 and AG-WL ~~AW~~) and forest resource (~~FR-40~~ FR-20 and FR-80) districts, lot area
14 includes on-site road easements, and one-half (1/2) the width, or thirty (30) feet,
15 whichever is less, of abutting public rights-of-way for perimeter streets, excluding
16 limited access state or interstate highways.

17 c. Driveways are included in lot area in all zones.

18 2. One lot within a proposed subdivision, short plat or exempt division shall be
19 considered in compliance with the minimum lot area requirements if it is within ten
20 percent (10%) of the required lot area for the zone. To utilize this provision in the R1-5
21 and R1-6 zones, one lot may be excluded from the average minimum lot calculations
22 and the ten percent (10%) lot area reduction may be applied to the excluded lot. The
23 provisions of this section shall not apply to developments utilizing the following:

24 a. Density transfer (Section 40.220.010(C)(5));

25 b. Rural cluster (Section 40.210.020).

26

3 **40.210.010 FOREST, AGRICULTURE AND AGRICULTURAL-WILDLIFE DISTRICTS**
4 **(FR-80, ~~FR-40~~ FR-20, ~~AG-20~~ AG-10, AG- WL)**

5 **A. Purpose.**

6 1. Forest 80 District. The purpose of the Forest 80 district is to maintain and
7 enhance resource-based industries, encourage the conservation of productive forest
8 lands and discourage incompatible uses consistent with the Forest I policies of the
9 comprehensive plan. The Forest 80 district applies to lands which have been
10 designated as Forest Tier 1 on the comprehensive plan. Nothing in this chapter shall
11 be construed in a manner inconsistent with the Washington Forest Practices Act.

12 2. Forest 4020 District. The purpose of the Forest 4020 district is to encourage
13 the conservation of lands which have the physical characteristics that are capable of
14 management for the long-term production of commercially significant forest products
15 and other natural resources, such as minerals.

16 3. Agriculture 2010 District. The purpose of the Agriculture 2010 district is to
17 encourage the conservation of lands which have the growing capacity, productivity,
18 soil composition, and surrounding land use to have long-term commercial significance
19 for agriculture and associated resource production.

20 4. Agricultural-Wildlife. The purpose of the AG-WL district is to encourage the
21 preservation of agricultural and wildlife use on land which is suited for agricultural
22 production, and to protect agricultural areas that are highly valuable seasonal wildlife
23 habitat from incompatible uses. The district provides for activities which can be
24 considered accessory only to agricultural, game, or wildlife habitat management, or
25 recreational uses. Nothing in this chapter shall be construed to restrict normal
26 agricultural practices.

27 **B. Uses.**

28 The uses set out in Table 40.210.010-1 are examples of uses allowable in the various
29 resource zone districts. The appropriate review authority is mandatory.

- 30 • "P" – Uses allowed subject to approval of applicable permits.
- 31 • "R/A" – Uses permitted upon review and approval as set forth in Section 40.520.020.
- 32 • "C" – Conditional uses which may be permitted subject to the approval of a
33 conditional use permit as set forth in Section 40.520.030.
- 34 • "X" – Uses specifically prohibited.

35
36 Where there are special use standards or restrictions for a listed use, the applicable
37 code section(s) in Chapter 40.260, Special Uses and Standards, or other applicable
38 chapter is noted in the "Special Standards" column.

² One (1) guesthouse in conjunction with a single-family dwelling or mobile home.

³ Public, where no public master planning process has been completed or private outdoor recreational facilities requiring limited physical improvements which are oriented to the appreciation, protection, study or enjoyment of the fragile resources of this area. In addition to those findings as specified by Section 40.520.030 (Conditional Use Permits), such uses shall be approved only upon the applicant establishing both of the following:

- There will be no significant environmental impact, especially as it relates to wildlife, resulting from the proposed use; and
- The subject site cannot be put to any reasonable economic use which is provided for in this section.

⁴ Government facilities necessary to serve the area outside urban growth boundaries, including fire stations, ambulance dispatch facilities and storage yards, warehouses, or similar uses.

⁵ Limited to fire stations only.

⁶ Agriculture including: floriculture, horticulture, general farming, dairy, the raising, feeding and sale or production of poultry, livestock, furbearing animals, and honeybees including feedlot operations, animal sales yards, Christmas trees, nursery stock and floral vegetation and other agricultural activities and structures accessory to farming or animal husbandry.

⁷ Additional surface mining and associated activities subject to zone change to add the surface mining overlay district, Section 40.250.020.

⁸ Commercial uses supporting resource uses, such as packing, first stage processing and processing which provides value added to resource products. Chippers, pole yards, log sorting and storage, temporary structures for debarking, accessory uses including but not limited to scaling and weigh operations, temporary crew quarters, storage and maintenance facilities, disposal areas, saw mills producing ten thousand (10,000) board feet per day or less, and other uses involved in the harvesting of forest products.

⁹ See Table 40.260.250-1.

¹⁰Once a property has been developed as a public facility, a docket is required to change the comprehensive plan designation from the current zone to the Public Facility zone.

C. Development Standards.

1. New lots and structures and additions to structures subject to this section shall comply with the applicable standards for lots and building height, and setbacks in Tables 40.210.010-2 and 40.210.010-3, subject to the provisions of Chapter 40.200 and Section 40.550.020.

² From public road right-of-way or private road easement.

³ All structures.

⁴ Residential buildings only.

2. Signs. Signs shall be permitted according to the provisions of Chapter 40.310.

3. Previous Land Divisions.

a. Within the FR-80, FR-4020 and AG-2010 districts, until the affected property is included within an urban growth boundary, no remainder lot of a previously approved agriculture or forest district "cluster" land division or lot reconfiguration shall be:

(1) a. Further subdivided or reduced in size below seventy percent (70%) of the total developable area of the original parent parcel constituting the cluster subdivision; or

(2) b. Reduced by a total of more than one (1) acre.

c. Applications for reduction in remainder lot size consistent with this provision shall be processed as a plat alteration pursuant to Section 40.540.120.

b. d. Exceptions to Subsections (C)(3)(a) and (b) of This Section. A remainder lot with an existing residence may be short platted further to contain the residence on its own lot, subject to the following:

(1) Process. Creation of the new lot is subject to the requirements of Section 40.540.030.

(2) Lot Size. The new lot shall be sized to require the minimum reduction in the remainder lot, but still meet minimum requirements of this section and for on-site sewage disposal as required by the Clark County Public Health Department.

(3) The new lot may not include critical areas unless no other alternative exists. If no alternative is available, encroachment into these areas shall be limited to the least amount possible consistent with applicable critical areas ordinances.

(4) A building envelope containing the existing residence and accessory buildings shall be established within the new lot, subject to the following:

(a) A minimum one hundred (100) foot setback between the envelope and the remainder parcel is maintained, unless it can be shown that a lesser setback with existing or proposed landscaping or existing vegetation will provide the same or greater buffering. In no case shall a setback less than fifty (50) feet be approved.

(b) A minimum twenty (20) foot setback between the envelope and other cluster lots is maintained.

(5) A note shall be placed on the plat stating the following:

1 The residential property is adjacent to agricultural or forest lands on which a variety of
2 resource-related activities may occur that are not compatible with residential
3 development. Potential discomforts or inconvenience may include, but are not limited to
4 to: Noise, odors, fumes, dust, smoke, insects, operation of machinery (including
5 aircraft) during any twenty-four (24) hour period, storage and disposal of manure, and
6 the application by spraying or otherwise of chemical fertilizers, soil amendments,
7 herbicides and pesticides.

8
9 (6) An open space, farm or forest management plan is required for the remainder
10 parcel, which shall prohibit additional residential development. The plan shall be
11 submitted and approved with the preliminary application. The plan shall identify
12 permitted uses and management of the parcel so that it maintains its open space or
13 other designated functions and provides for the protection of all critical areas. The
14 management plan shall identify the responsibility for maintaining the remainder parcel.
15 The plan shall also include any construction activities (trails, fencing, agricultural
16 buildings) and vegetation clearing that may occur on site. All subsequent activities
17 must be conducted in conformance with the approved management plan.
18 Management plans may be modified through a Type II process. A note shall be placed
19 on the plat and a restrictive covenant shall be recorded that clearly states that only the
20 above uses are permitted on the remainder parcel. The note and covenant shall also
21 incorporate the management plan, as described above.

22 4. Nonconforming lots may be reconfigured pursuant to Section 40.530.020(B).

23
24 D. Nonconforming Lots – Lot Reconfiguration Standards

25 1. Purpose. It is in the public interest to encourage the protection of sensitive
26 lands, expand the amount of commercially viable resource land under single
27 ownership, reduce the amount of road and utility construction and, within the FR-80,
28 ~~FR-4020~~ and ~~AG-1020~~ districts, to protect and buffer designated resource lands.

29 2. Lot Reconfiguration. Except for previously approved agricultural or forest zoned
30 clusters or rural residential planned unit developments, these substandard lots may be
31 modified where consistent with the following criteria. Parcels which meet all of the
32 following criteria are eligible for reconfiguration and reduction in size subject to a Type
33 II review:

34 a. Existing parcel(s) is:

35 (1) smaller than the minimum lot size established for new lots in the applicable
36 zoning district. Parcels which meet the minimum lot size may be adjusted as a part of
37 this process, but may not be decreased below the established minimum lot size

38 (2) determined to be legally created, and be reasonably buildable. Within the FR-
39 80, ~~FR-2040~~ and ~~AG-1020~~ districts, this section authorizes lot reconfiguration only
40 where existing divisions are determined to have a reasonable probability of
41 developing. For the purposes of this section the review authority shall determine
42 whether the existing lots are reasonably buildable by considering the following: road
43 access, septic suitability, topography, costs of providing infrastructure and the
44 presence of sensitive land

45 b. Proposed parcel(s) results in the following:

46 (1) No additional parcels;

47 (2) Have septic suitability approval;

48 (3) Have adequate potable water at the time of occupancy, subject to Section
49 40.370.020;

- 1 (4) Each resulting legal nonconforming parcel shall be at least one (1) acre in size
 2 with a minimum width of at least one hundred forty (140) feet; and
 3 (5) In addition, within the FR-80, FR-~~2040~~ and AG-~~1020~~ districts:
 4 (a) The location of the resulting reconfigured lots shall have the least impact on
 5 sensitive and resource lands;
 6 (b) Access to reconfigured lots shall meet the minimum standards necessary to
 7 obtain a building permit;
 8 (c) The remainder lot shall not be further subdivided or reduced in size unless the
 9 affected property is included within an urban growth boundary;
 10 (d) Reconfigured lots shall not be further adjusted by boundary line adjustment
 11 without approval under this section.
 12 c. Reconfigured lots shall result in achieving one (1) or more of the identified
 13 public interest issues in Section 40.210.010(D)(1).
 14 3. Lot Requirements. The setback, dimensional, use and height standards for
 15 these lots shall be as established for the Rural-5 (R-5) district except that reductions
 16 in side and rear setbacks shall be granted where necessary to permit construction of a
 17 dwelling on the parcel; providing, when the parcel is abutting, or surrounded by,
 18 property zoned for resource uses, the minimum setback from those property lines
 19 shall be fifty (50) feet for all structures.
 20 4. The review authority may impose conditions on the lot reconfiguration to further
 21 the purposes of this section.
 22 5. Lot reconfigurations shall be finalized upon the filing of a record of survey or
 23 covenant.
 24

25 E. Land Division in the AG-10 and FR-20 Zones.

26 1. Purpose.

- 27 a. The provisions of this subsection shall apply to all land divisions in the AG-10
 28 and FR-20 zoning districts after July 1, 2016.
 29 b. Available options for land division are authorized:
 30 (1) Pursuant to Chapter 40.540; or
 31 (2) Pursuant to Chapter 40.540 and by using the cluster provisions in Section
 32 40.210.010(E)(3).
 33 c. In the AG-10 zoning district:
 34 (1) Land divisions that result in parcels twenty (20) acres (or lots capable of
 35 being described as 1/32 of a section) in size or larger are allowed under the
 36 exemption provisions of Section 40.540.020(B)(4)(b).
 37 (2) Land divisions that result in parcels less than (20) acres in size must be
 38 platted and meet the additional requirements of this chapter.
 39 d. In the FR-20 zoning district, land divisions that result in parcels less than (40)
 40 acres in size must be platted and meet the additional requirements of this
 41 chapter.
 42 f. Previously approved cluster or lot reconfiguration remainder lots are not eligible
 43 to use the provisions of this section.
 44

45 2. Definitions. For the purposes of this subsection, the following definitions shall apply:
 46

<u>Critical lands</u>	<u>“Critical lands” mean those lands classified by Chapter 40.440 as habitat areas, by Chapter 40.450 as any wetland</u>
-----------------------	--

	<u>category and associated buffers, by Chapter 40.430 as landslide hazard areas, all lands subject to Shoreline Management Act jurisdiction by Chapter 40.460, and all lands within a designated one hundred (100) year floodplain or floodway by Chapter 40.420.</u>
<u>Remainder parcel</u>	<u>“Remainder parcel” means the remainder parcel of the cluster subdivision that contains the majority of the land within the development and is devoted to resource or open space use.</u>

1
2 3. Development standards for subdivisions or short plats.

3 Subdivisions and short plats are allowed pursuant to Chapter 40.540. The density
4 shall be based on one hundred percent (100%) of the gross area of the site.
5

6 4. Development Standards for Clustering.

7 a. Cluster developments are allowed at a maximum density equivalent to that which
8 would be permitted by applying the otherwise applicable minimum lot size
9 requirements of this section. The density shall be based on one hundred percent
10 (100%) of the gross area of the site.

11 b. Cluster lots shall be created, as follows:

- 12 (1) to minimize conflicts between housing and agricultural or forest uses;
13 (2) along parent property boundary lines, adjacent to existing roads, and to minimize
14 the need for new roads and driveways;
15 (3) to have building envelopes that avoid critical areas;
16 (4) on parcels with an existing house, one of the cluster lots has to include the existing
17 house;
18 (5) to be adjacent to each other and to any pre-existing residence, unless the location
19 of the existing residence would preclude compliance with the other provisions of
20 this subsection;
21 (6) if located on agriculturally zoned land, and to the extent not precluded by other
22 provisions of this subsection, to be limited lands with poor soils or soils otherwise
23 unsuitable of agriculture purpose; and
24 (7) each cluster lot shall contain a buffer from abutting resource uses.

25 c. Remainder parcel.

- 26 (1) The remainder parcel shall be contiguous. Fragmentation of the parcel by
27 public or private road easements and/or building sites shall not occur unless
28 no other reasonable alternative exists. Remainder parcels shall also be
29 located adjacent to other bordering remainder parcels or public parks and
30 open space, if practical.
31 (2) The remainder parcel shall be non-buildable and used for the agriculture
32 and forestry uses as listed in Table 40.210.010-1(8)(a), (b) and (d), or as
33 open space.
34 (3) A farm or forest management plan is required for the remainder parcel. The
35 plan shall be submitted and approved with the preliminary application. The
36 plan shall:
37 (a) identify permitted uses and management of the parcel so that it
38 maintains designated agricultural or forest functions and provides for the
39 protection of all critical areas;

- 1 (b) identify the responsibility for maintaining agriculture or forest uses on the
 2 parcels; and
 3 (c) include any construction activities (for example, fencing or agricultural
 4 buildings) and vegetation clearing that may occur on-site.
 5 If in current use, the plan submitted for the current use taxation program
 6 shall suffice for meeting this requirement.
 7 (4) A note shall be placed on the plat that the remainder parcel shall not be
 8 further subdivided or reduced in size unless brought into an urban growth
 9 area. In addition, a restrictive covenant shall be recorded that clearly state
 10 that only the above uses are permitted on the parcel. The note and
 11 covenant shall also incorporate the management plan, as described above
 12 d. Lot Requirements. New lots and structures and additions to structures subject
 13 to this section shall comply with the applicable standards for lots and building
 14 height, and setbacks in Tables 40.210.010-4 and 40.210.010-5, subject to the
 15 provisions of Chapter 40.200 and Section 40.550.020.

 19 ¹ Unless a larger size is required by Clark County Public Health. In no case shall a cluster lot exceed
 20 one-and-a-half (1.5) acres in size. Cluster lots can use right-of-way to meet the minimum lot size as
 21 permitted by Section 40.200.040(C)(1).

22 ² The minimum standard for remainder parcels controls the maximum size of cluster lots.

¹Except in cases where it can be shown that requiring the normal setback will result in the location of the building sites within inappropriate areas such as wildlife habitat or wetland areas or the dimensions of the development site render it unbuildable.

²Residential buildings only.

e. Design Requirements. The design requirements for cluster developments are listed below. These requirements shall be recorded on the plat.

(1) No entryway treatments, monument or other permanent development signs are permitted. This shall not be construed to prohibit landscaping.

(2) To the maximum practicable extent, existing historic rural features shall be preserved as part of the cluster development. These features include but are not limited to rock walls, fences, functional and structurally safe farm buildings, monuments and landscape features.

f. Landscaping Standards. Cluster developments shall be landscaped within the cluster lots to reduce views of the development from public right(s)-of-way, so that a filtered view is provided of the cluster and the cluster does not dominate the landscape.

(1) At a minimum, proposed or existing landscaping and vegetation shall be of sufficient size and type to provide a buffer of vegetation six (6) feet in height and fifty percent (50%) opaque year round within three (3) years of planting. New landscaping materials shall consist of native vegetation as provided on the Clark County plant list (see the Standard Details Manual). A combination of trees and shrubs must be used.

(2) All landscaping shall be installed prior to final plat unless financial guarantees are made for its installation prior to any building permit activity. Any required landscaping materials that fail to survive within the first two (2) years shall be promptly replaced.

g. Notice of Resource Activities. For any areas abutting property zoned for agricultural or forestry uses, the following notice shall be recorded as part of the Developer Covenants to Clark County for each parcel within the cluster:

"The subject property is adjacent to commercial agricultural or forest lands on which a variety of commercial activities may occur that are not compatible with residential development. Potential discomforts or inconvenience may include, but are not limited to: noise, odors, fumes, dust, smoke, insects, operation of machinery (including aircraft) during any twenty-four (24) hour period, storage and disposal of manure, and the application by spraying or otherwise of chemical fertilizers, soil amendments, herbicides and pesticides."

3 **40.250.040 EXISTING RESORT OVERLAY DISTRICT**

4
5 **A. Purpose.**

6 A resort is a self-contained and fully integrated planned unit development in a setting
7 of significant natural amenities with primary focus on destination resort facilities
8 consisting of short-term visitor accommodations associated with a range of indoor and
9 outdoor recreational facilities (RCW 36.70A.360). A resort may include other housing
10 for full-time or seasonal employees residential uses within its boundaries. but only if
11 the residential uses are integrated into and support the on-site recreational nature of
12 the resort (RCW.36.70A.360) This district is intended to ~~set out~~ provide development
13 guidelines ~~of for historic existing (RCW 36.70A.362) and new (RCW 36.70A.360)~~
14 resort facilities that complement the natural and cultural attractiveness of the area
15 without significant adverse effects on natural and environmental features. The district
16 provides for recognition of existing, self-contained, indoor and outdoor recreational
17 facilities that are outside of urban growth areas and in a rural or resource area setting
18 of significant natural amenities. This district is intended to identify and protect existing
19 general resort-like facilities.

20
21 *****

22 **C. Uses.**

23 The following uses are permitted in the area subject to this overlay district:

- 24 1. Lawful existing uses and structures in existence on July 1, 1990.
- 25 2. All uses specifically permitted or conditional in the base-zoning district shall
26 continue to be allowed according to the review procedures consistent with this title.
- 27 3. Overnight lodging, including lodges, hotels, motels, timeshare units and similar
28 temporary living accommodations only when oriented and sized to serve the
29 recreational uses on the site.
- 30 4. Housing may be provided for full-time or seasonal employees.
- 31 5. Subject to an approved development plan, the following uses may be permitted
32 when provided as part of, and intended primarily to serve as an accessory part of
33 destination resort. These uses shall be oriented to meet the needs of visitors to the
34 resort and to a scale that ensures a subordinate status to the resort itself:
 - 35 a. Restaurants, lounges and clubs serving the resort.
 - 36 b. Commercial services and specialty shops to provide for the needs of resort
37 guests and employees.
 - 38 c. Kennels as a service for resort guests only.
 - 39 d. Craft and art studios and galleries catering to guests of the resort.
 - 40 e. Indoor and outdoor recreational facilities and uses including, but not limited to,
41 accessory structures and facilities, such as clubhouses, practice facilities, and
42 maintenance facilities, tennis courts, swimming pools, marinas, hiking and nature
43 trails, bicycle paths, equestrian facilities, and other recreational uses deemed to be
44 consistent with the on-site recreational nature of the resort.
 - 45 f. Community sewer, water, security and fire protection may be provided on-site
46 and sized to meet only the needs of the development. Other utilities and services may
47 be provided only to the extent necessary to maintain and operate the resort.
 - 48 g. Temporary and/or permanent structures to serve as sales offices.
 - 49 h. Any other similar uses deemed by the responsible official to be consistent with

1 the purpose and intent of this chapter, the county comprehensive plan policies and
2 RCW 36.70A.362.

5
6 E. Approval.

7 A new resort overlay may be approved in an area outside of established urban growth
8 boundaries provided it meets the following criteria:

- 9 1. is not located in Agricultural or Forest resource land;
- 10 2. the location, design, and provision of necessary utilities does not allow
11 for the development of new urban or suburban land uses in the
12 immediate vicinity;
- 13 3. the proposed site includes unique natural amenities, such as views,
14 streams, lakes or other features that provides a natural attraction for
15 public use;
- 16 4. the proposed development provides public services appropriate for the
17 resort use and is strictly contained within the boundaries of the resort
18 property by design and construction;
- 19 5. the proposed site for the master planned resort is sufficient in size and
20 configuration to provide for a full range of resort facilities while
21 maintaining adequate separation from any adjacent rural or resource
22 land uses;
- 23 6. residential uses are designed for short-term or seasonal use. Full time
24 residential uses are prohibited, except for employee housing;
- 25 7. the major recreational facilities within the master planned resort must
26 be open to the public and the overall facilities and recreational activities
27 should must promote tourism and the recreational goals of the
28 comprehensive plan;
- 29 8. each proposal includes a full inventory of critical wildlife habitat,
30 significant wetlands, shorelines and floodplains, and cultural resources;
- 31 9. significant natural and cultural features of the site are preserved and
32 enhanced to the greatest degree possible;
- 33 10. commercial uses and activities are limited in size to serve the
34 customers within the master planned resort and located within the
35 project; and
- 36 11. adequate emergency services are available to the area to ensure the
37 health and safety of people using or likely to use the facility.

1 **EXHIBIT 22**

2
3 **40.250.090 EQUESTRIAN OVERLAY DISTRICT**

4 A. Purpose.

5 This overlay is intended to promote equestrian activities, by allowing the development
6 of communities with a focus on equestrian facilities, access to trails, and on sustaining
7 the area's rich equestrian tradition.

8
9 B. Applicability.

10 An equestrian overlay (EQ) may only be established on parcels located outside of the
11 Urban Growth Boundary. Ideally, an equestrian overlay will be located on lands
12 primarily adjacent to or in close proximity to existing and future open space and trail
13 systems, in particular, open space and trails which support equestrian uses; and lands
14 adjacent to or in close proximity to rural centers.

15
16 This overlay will apply to property owners who voluntarily agree to ensure that
17 equestrian activities may continue on their land through the formation of an
18 association with adopted bylaws, conditions, covenants and restrictions and/or
19 easements running with the land.

20
21 C. Uses.

22 The following uses are permitted in the overlay:

- 23 1. All uses specifically permitted or conditional in the base zoning district shall
24 continue to be allowed according to the review procedures consistent with the Unified
25 Development Code.
26 2. Equines to be housed on a property for the landowner's private use.

27
28 D. Process.

29 Establishing the (EQ) requires a Comprehensive Plan Map Amendment subject to the
30 provisions of Section 40.560.010 (D).

31
32 E. Submittal Requirements.

33 Comprehensive Plan Map Amendment. In addition to the submittal requirements in
34 Section 40.560.010(D)(3) the following are required:

- 35 1. Location of all equestrian trails and easements related to the equestrian trails;
36 2. Location of all land to be dedicated or reserved for shared use with the use
37 indicated;
38 3. Include location of equestrian community signs, as well as location of those signs at
39 the entrances of the equestrian area;
40 4. Location of any easements or crossings that may cross any right-of-way;
41 5. A copy of any by-laws, articles of incorporation of the association, easements,
42 maintenance agreements and any covenants. Prior to recording with the County
43 Auditor, any conditions, covenants and restrictions shall be approved as to form by
44 the Prosecuting Attorney.
45 6. An equestrian plan that addresses the following:
46 a. Housing and confinement;
47 b. Animal husbandry;
48 c. Manure management; and
49 d. Odor and noise management.

1 **EXHIBIT 23**

2
3 40.250.100 URBAN RESERVE OVERLAY (UR-10, UR-20)

4
5 A. Purpose.

6 These lands are identified as being possible future additions to Urban Growth Areas
7 and may be added to the urban area as necessary through amendments to the
8 Comprehensive Plan. These lands are on the fringe of the Urban Growth Boundaries.
9 The purpose of the Urban Reserve Overlay is to protect areas from premature land
10 division and development that would preclude efficient transition to urban
11 development. The Urban Reserve Overlay is implemented by Urban Reserve-10 (UR-
12 10) for future urban residential development and Urban Reserve-20 for all other types
13 of future urban development.

14 1. Urban Reserve-10 (UR-10). The urban reserve-10 overlay is to protect land
15 identified on the fringe of urban growth boundaries from premature land division and
16 development that would preclude efficient transition to urban development.

17 2. Urban Reserve-20 (UR-20). The urban reserve-20 overlay is to protect rural land on
18 the fringe of urban growth boundaries from premature land division and development
19 that would preclude efficient transition to large-scale non-residential development.

20
21 B. Uses.

22 1. The uses set out in Table 40.250.100-1 are examples of uses allowable in the
23 urban reserve overlay.

24 2. The appropriate review authority is mandatory.

- 25 • “P” – Uses allowed subject to approval of applicable permits.
- 26 • “R/A” – Uses permitted upon review and approval as set forth in Section
27 40.520.020.
- 28 • “C” – Conditional uses which may be permitted subject to the approval
29 of a conditional use permit as set forth in Section 40.520.030.
- 30 • “X” – Uses specifically prohibited.

31 3. In addition to the criteria in Section 40.520.030, in order to be approved, the
32 following criteria shall be met by all conditional uses:

- 33 a. Permanent structures or facilities shall be designed and located to provide
34 for the orderly extension of public roads, water and sewer to the site and
35 surrounding urban reserve properties.
- 36 b. All necessary road, drainage and other rights-of-way or easements
37 necessary to ensure that future urban development will occur in an orderly
38 manner shall be identified and approved by the county engineer and
39 dedicated or otherwise protected.
- 40 c. The property owner shall submit with the conditional use application a
41 signed agreement(s) between the property owner and the service
42 provider(s) that obliges the property owner to connect to public sewer and
43 water when each becomes available within three hundred (300) feet of the
44 site. The agreements must be consistent with Section 40.370.010.

45 4. In addition to the criteria in Section 40.520.030, in order to be approved, the
46 following criteria shall be met by all schools:

47 a. The proponent shall demonstrate that the proposed site is more suitable than
48 specific alternative sites within the existing urban growth area. The proponent shall
49 address suitability criteria, which includes property size, topography, zoning.

- 1 surrounding land uses, transportation (including adequacy of roads and transit
 2 services), environmental concerns and location within the area to be served.
 3 b. Schools shall be located within one-quarter (1/4) mile of the urban growth boundary
 4 unless the applicant demonstrates no suitable property is available.
 5 5. Where there are special use standards or restrictions for a listed use, the
 6 applicable code section(s) in Chapter 40.260, Special Uses and Standards, or other
 7 applicable chapter is noted in the "Special Standards" column.

³ Once a property has been developed as a public facility, a docket is required to change the comprehensive plan designation from the current zone to the Public Facility zone.

C. Development Standards.

1. New lots and structures and additions to structures subject to this section shall comply with the applicable standards for lots and building height, and setbacks in Tables 40.250.100-2 and 40.250.100-3 subject to the provisions of Chapter 40.200 and Section 40.550.020.

3 40.250.110 Urban Holding Overlay (UH-10, UH-20)

4
5 A. Purpose.

6 The Urban Holding Overlay is used to protect areas from premature land division and
7 development that would preclude efficient transition to urban development or large-
8 scale industrial development.

9 1. The Urban Holding-10 overlay (UH-10) may be applied to protect certain lands
10 identified within urban growth areas from premature development when public policy
11 establishes urbanization criteria such as requiring annexation prior to development.
12 The Urban Holding-10 district is also appropriate where public facilities are inadequate
13 to support development under the urban zoning designation.

14 2. The Urban Holding-20 overlay (UH-20) has the same purpose as UH-10 except that
15 the area is intended to be developed for industrial or office type nonresidential uses
16 and retention in larger lots will ensure the site is adequate in size to accommodate
17 large industrial or office developments.

18
19 B. Uses.

20 The uses set out in Table 40.250.110-1 are examples of uses allowable in various
21 areas under the urban holding overlay. The appropriate review authority is mandatory.

22 • “P” – Permitted uses.

23 • “R/A” – Uses permitted upon review and approval as set forth in Section
24 40.520.020.

25 • “C” – Conditional uses which may be permitted subject to the approval of a
26 conditional use permit as set forth in Section 40.520.030 and the additional conditional
27 use criteria herein:

28 1. Permanent structures or facilities shall be designed and located to provide for the
29 orderly extension of public roads, water and sewer to the site and surrounding
30 properties.

31 2. All urban road, drainage and other urban development requirements shall apply to
32 ensure that future urban development will occur in an orderly manner.

33 3. The property owner shall submit with the conditional use application a signed
34 agreement(s) between the property owner and the service provider(s) that obliges the
35 property owner to connect to public sewer and water when each becomes available
36 within three hundred (300) feet of the site. The agreements must be consistent with
37 Section 40.370.010.

38 • “X” – Uses specifically prohibited.

39
40
41 Where there are special use standards or restrictions for a listed use, the applicable
42 code section(s) in Chapter 40.260, Special Uses and Standards, or other applicable
43 chapter is noted in the “Special Standards” column.

11 change the comprehensive plan designation from the current zone to the Public
12 Facility zone.

13
14 C. Development Standards.
15 1. New lots and structures and additions to structures subject to this section shall
16 comply with the applicable standards for lots and building height, and setbacks in
17 Tables 40.250.110-2 and 40.250.110-3, subject to the provisions of Chapter 40.200
18 and Section 40.550.020. Site plan review is required for all new development and
19 modifications to existing permitted development unless expressly exempted by this
20 title (see Section 40.520.040).

¹ Side Setback. Minimum side setback on each side of the residential dwelling and incidental buildings shall be twenty (20) feet, and fifty (50) feet for accessory buildings used for agricultural purposes. Side setbacks from abutting property zoned for natural resource or surface mining uses shall be a minimum of fifty (50) feet for all structures.

² Rear Setback. Minimum rear setback shall be fifty (50) feet when abutting property zoned for natural resource or surface mining uses.

³ Residential buildings only.

⁴ Nonconforming lots subject to the provisions of Section 40.530.010(D)(2).

2. Nonconforming Lots – Lot Reconfiguration Standards.

a. Purpose. It is in the public interest to encourage the protection of sensitive lands, expand the amount of commercially viable resource land under single ownership and reduce the amount of road and utility construction.

b. Lot Reconfiguration. Except for previously approved agricultural or forest zoned clusters or rural residential planned unit developments, these substandard lots may be modified where consistent with the following criteria. Parcels which meet all of the following criteria are eligible for reconfiguration and reduction in size subject to a Type II review if:

(1) Existing parcel(s) are:

(a) Smaller than the minimum lot size established for new lots in the applicable zoning district. Parcels which meet the minimum lot size may be adjusted as a part of this process, but may not be decreased below the established minimum lot size;

(b) Determined to be legally created, have lawful access, and be buildable.

(2) Proposed parcel(s) result in the following:

- 1 (a) No additional parcels;
2 (b) Have septic suitability approval;
3 (c) Have adequate public or private potable water at the time of occupancy;
4 (d) Each resulting legal nonconforming parcel shall be at least one (1) acre in size
5 with a minimum width of at least one hundred forty (140) feet.
6 (e) Result in achieving one (1) or more of the identified public interest issues in one
7 (1) above.
8 c. Lot Requirements. The setback, dimensional, use and height standards for these
9 lots shall be as established for the Rural 5 zone except that reductions in side and
10 rear setbacks shall be granted where necessary to permit construction of a dwelling
11 on the parcel, according to the provisions of Chapter 40.200.070 and 40.530.010
12 (D)(2); provided, when the parcel is abutting, or surrounded by, property zoned for
13 resource uses, the minimum setback from those property lines shall be fifty (50) feet
14 for all structures.
15 3. Signs. Signs shall be permitted according to the provisions of Chapter 40.310.
16 4. Off-Street Parking. Off-street parking shall be provided as required in Chapter
17 40.340.

7 and AG-WL districts, an ambulance dispatch facility may be permitted upon issuance
8 of a conditional use permit; provided, that the site has a minimum lot size of ten
9 thousand (10,000) square feet in the urban area and should be on a street designated
10 as an arterial on the county's comprehensive plan.

11
12 B. Properties will develop per the standards of the current zone.

13
14 C. Once a property has been developed as a public facility, a docket is required to
15 change the comprehensive plan designation from the current zone to the Public
16 Facility zone.

3 40.260 SPECIAL USES AND STANDARDS

4

5 40.260.050 BED AND BREAKFAST ESTABLISHMENTS

6

7 A. Purpose.

8 This section provides standards for the establishment of bed and breakfast facilities.

9 The regulations are intended to allow for a more efficient use of large, older houses
10 for a purpose which has been found to be compatible with residential uses. These
11 regulations enable owners to protect and maintain large residential structures in a
12 manner which keeps them primarily in residential uses. The proprietor can take
13 advantage of the scale and often the architectural and historical significance of a
14 residence. The regulations also provide an alternative form of lodging for visitors who
15 prefer a residential setting.

16

17 B. Use-Related Regulations.

18 1. A bed and breakfast establishment must be accessory to a household living on the
19 site. This means that an individual or family who operates the establishment must own
20 and occupy the house as their primary residence. The house must have been used as
21 a residence for at least a total of five (5) years prior to filing the application for a bed
22 and breakfast establishment.

23 2. Banquets, parties, weddings or meetings for guests or other non-family members
24 are prohibited. Services may only be provided to overnight patrons of the facility.

25 3. Establishments containing three (3) to six (6) bedrooms for guests must meet the
26 Department of Social and Health Services (DSHS) bed and breakfast guidelines
27 administered by DSHS.

28 4. Bed and breakfast establishments are only allowed on resource lands (FR-80, ~~FR-~~
29 ~~40-FR-20~~, ~~AG-20~~ AG-10 and AG-WL) when they do not diminish the primary use of
30 the land for long-term commercial production of forest products and other natural
31 resources.

3 **40.260.075 ELECTRIC VEHICLE INFRASTRUCTURE**

4
5 **A. Purpose.**

6 This section provides opportunities for electric vehicle infrastructure in all zoning
7 districts in the county. These regulations are intended to:

- 8 1. Provide adequate and convenient electric vehicle charging stations to serve the
9 needs of the traveling public;
10 2. Provide opportunities for Clark County residents to have safe and efficient personal
11 electric vehicle charging stations located at their place of residence; and
12 3. Provide the opportunity for commercial and industrial projects to supply electric
13 vehicle charging station services to their customers and employees.

14
15 **B. Applicability.**

- 16 1. Electric vehicle infrastructure is permitted, as follows:
17 a. Electric vehicle charging stations equipped with Level 1 or Level 2 charging
18 equipment as an accessory use in all zoning districts.
19 b. Rapid charging stations also known as Level 3 charging in CR-1, CR-2, R-30, R-43,
20 OR-15, PR-18, OR-22, OR-30, OR-43, MX, CC, ~~G-3~~, GC, IL, IH, BP, U, A, UH-10, and

6 1. Subject to Section 40.260.115(D)(1)(d), marijuana facilities as defined in Section
7 40.260.115(C) may be sited as follows:

8 a. Marijuana production facilities may be allowed on legal parcels of at least ten (10)
9 acres in size zoned ~~AG-20~~ AG-10 and ~~FR-40~~ FR-20, and on legal conforming parcels
10 zoned IL, IH, and IR.

11 b. Marijuana processing facilities may be allowed on legal parcels as follows:

12 (1) Processor I facilities, on legal conforming parcels zoned IL, IH, IR, and BP;

13 (2) Processor I facilities, on parcels of at least ten (10) acres in size zoned ~~AG-20~~ AG-
14 10 and and ~~FR-40~~ FR-20, but only as accessory to licensed production facilities; and

15 (3) Processor II facilities, on parcels zoned IH, IL, IR, and BP.

D. Development Standards.

1. Parking Requirements.

a. For Community and Regional Parks, the minimum number of on-site parking spaces shall be calculated by using peak rate of trips generated as established by a submitted traffic study. On-site parking shall meet the requirements of Section 40.340.010.

b. For Neighborhood Parks, parking spaces are not required, as they are intended to serve residents who can walk to the facility.

2. Accessibility requirements, as adopted by reference in Section 14.01.010, shall be reviewed and approved by the Chief Building Official and shall apply to all structures and facilities; accessible routes thereto, including parking, public ways, and public services; and their surrounding areas serving the structures and facilities within a neighborhood park. Areas outside of these, such as trails and secondary entrances, are not subject to approval under Section 14.01.010, but shall be in compliance with Washington State Building Code, 2004 ADA-ABA, or other applicable state and national standard and any subsequent revisions.

3. Transportation Impact Fees (TIF) for Community and Regional Parks shall be calculated in accordance with Chapter 40.620.

E. Review Process.

1. Parks are subject to the review requirements pursuant to Chapter 40.510 and the site plan review requirements pursuant to Section 40.520.040. Table 40.260.157-2 shows required levels of review.

2. Alteration to Approved Plan. Changes or additions to an approved parks plan may occur at any time without further site plan review, provided:

a. The alteration replaces or proposes addition of any amenity identified in Table 40.260.157-1 with another amenity, other than those in Section 1. These uses require a modified site plan and a Type I review to ensure compatibility with the surrounding neighborhood.

b. Any change or alteration does not expand onto an abutting property which was not considered in the original site plan review application.

c. There is no change in compliance with building, fire, health, life safety, accessibility,

1 critical areas, or other development requirements of the code.
2 d. The changes do not trigger Minimum Requirement #1 pursuant to Chapter 40.386.

5 40.260.170 PRIVATE USE LANDING STRIPS FOR AIRCRAFT AND HELIPORTS

6
7 All landing strips for aircraft or heliports shall be so designed and the runways and
8 facilities so oriented that the incidence of aircraft passing directly over dwellings
9 during their landing or taking off patterns is minimized. They shall be located so that
10 traffic shall not constitute a nuisance to neighboring uses. The proponents shall show
11 that adequate controls or measures will be taken to prevent offensive noise,
12 vibrations, dust or bright lights.

13
14 A. Private landing strips and heliports may be permitted upon approval of a conditional
15 use permit only in the R-5, R-10, R-20, ~~AG-20~~ AG-10, ~~FR-40~~ FR-20, IL and IH zoning
16 districts.

17
18 B. Heliports, helipads and helispots are permitted outright only in the FR-80 district.

19
20 C. Private use heliports may also be permitted upon approval of a conditional use
21 permit in the C-3, CL, GC and OR districts.

8 Temporary dwellings authorized herein shall be subject to the following minimum
9 conditions:

10 1. The lot, tract or parcel shall be of such size and configuration, and the temporary
11 dwelling shall be located in such a manner as to enable compliance with such zoning
12 and subdivision regulations as would be applicable but for the authorization of this
13 section; provided, that:

14 a. One (1) temporary dwelling may be approved for each authorized permanent
15 dwelling, if the tract or parcel of which it is a part is either:

16 (1) One (1) acre or larger in size; or

17 (2) Able to comply with the residential density standards for the applicable zoning
18 district with the addition of the temporary dwelling(s). For example, the addition of one
19 (1) temporary dwelling on a ten thousand (10,000) square foot lot in the R1-5 zoning
20 district with one (1) existing dwelling.

21 b. Within the agriculture and forest districts (~~FR-80, FR-40~~ FR-20, ~~AG-20~~ AG-10):

22 (1) The additional dwelling(s) private well and septic system shall be located where
23 they will minimize adverse impacts on resource land;

24 (2) If practical, the temporary dwelling shall be located within two hundred (200) feet
25 of the principal dwelling.

5 **D. Site Location of Wireless Communications Facilities.** Wireless communications
6 facilities are permitted in any zone in the unincorporated county subject to the
7 following preferences and the limitations in Section 40.260.250(E)(2). New wireless
8 communications facilities shall be in conformance with all applicable standards as
9 provided by this section.

10 **3. Location Priorities for New Towers.** The county's preferences for new support tower
11 locations in rural areas and in urban areas are listed below in descending order with
12 the highest preference first. There is no preference for urban versus rural locations.

13 **a. Order of preference for new support towers in rural areas:**

14 (1) Rural Industrial outside rural centers (IH), to include UR-20 and UR-
15 40;

16 (2) Forest Tier I (FR-80) and Tier II (~~FR-40~~ FR-20);

17 (3) Rural Industrial inside rural centers (IH);

3 40.560 PLAN AND CODE AMENDMENTS

4
5 40.560.010 PLAN AMENDMENT PROCEDURES

6
7 M. Additional Required Criteria Specific to Urban Growth Area ((GA) Boundary Map
8 Changes.

9 1. The county shall adopt countywide growth targets and regional sub-allocations, and
10 map corresponding UGA boundaries and designations as follows:

11 a. Adopt countywide twenty (20) year target population and employment levels
12 consistent with official State of Washington Office of Financial Management

13 population growth forecasts ranges; and

14 b. Officially sub-allocate the adopted countywide population and employment targets
15 to urban growth areas associated with each incorporated municipality in the county,
16 and to the remaining rural area; and

17 c. Adopt urban growth area boundaries and comprehensive plan land use
18 designations which are consistent in their sizes and designations with the official sub-
19 allocation for each UGA and the rural area.

20 2. To allow for a comprehensive review and assessment of cumulative impacts, all
21 UGA boundary review proposals shall be initiated by the county as part of a periodic
22 review and update of the plan.

23 3. Any expansion to the UGA shall be accompanied by a demonstration that
24 necessary urban services can and will be provided within ten (10) years' time. Such a
25 demonstration shall include a need analysis estimating what urban services will be
26 required, both in the expansion area and elsewhere in the county, and estimates as to
27 when such services will be needed. Written documentation shall be provided from
28 service providers indicating when, how, at what cost, and from which funding sources
29 service will be provided.

30 4. The extent of a UGA boundary expansion shall be that necessary to provide a
31 minimum ten (10) and a maximum twenty (20) year supply of vacant and buildable
32 lands within the UGA. The calculation of supply shall be based on population growth
33 projections within the UGA, where such projections are consistent with adopted
34 countywide growth targets and regional sub-allocations. If necessary, the county may
35 adjust countywide growth targets and regional sub-allocations; provided, that they are
36 consistent with official OFM forecasts.

37 5. In evaluating potential changes to a particular UGA boundary, the county shall
38 consider countywide implications for other UGAs and their sub-allocations.

39 6. The amendment shall address the assumptions, trends, key indicators and
40 performance measures established in the land use element, Chapter 1, of the
41 comprehensive plan.

42 7. The amendment does not include lands that are designated as natural resource
43 (agricultural, forest, mineral resource) unless such lands are also designated with an
44 urban reserve or industrial urban reserve overlay.

45 8. The amendment only indicates lands within the urban reserve area.

46 ~~9. The following shall not apply to Sections 40.560.010(M)(1) through (10):~~

47 ~~a. Correction of technical mapping errors involving small area or few properties;~~

48 ~~b. An order from a court of competent jurisdiction or as a result of a Growth-~~
49 ~~Management Hearings Board remand.~~

1 ~~9.10.~~ The county shall exercise its best efforts to coordinate UGA boundary change
2 proposals with the affected city(ies), including the preparation of joint staff
3 recommendations where possible. Unless waived by the affected city(ies), such
4 city(ies) shall be given at least sixty (60) days' notice of the proposal prior to a county
5 hearing thereon.

6 10. Except as provided for in RCW 36.70A.110(8), the expansion of an urban growth
7 area (UGA) is prohibited into the 100-year floodplain of a river segment when the river
8 has a mean annual flow of one thousand (1000) or more cubic feet per second.

9 11. The following shall not apply to Sections 40.560.010(M)(1) through (10):

10 a. Correction of technical mapping errors involving a small area or few properties;

11 b. An order from a court of competent jurisdiction or as a result of a Growth
12 Management Hearings Board remand.

13

14 P. Other Plan Amendment Categories.

15 1. Capital facilities plan and updates shall be reviewed at a minimum every four (4)
16 years in Type IV public hearings ~~conducted by the planning commission and board for~~
17 those facilities subject to county jurisdiction. ~~School capital facility plan and updates~~
18 ~~shall be reviewed at minimum two (2) year intervals.~~

19 2. School capital facility plans and updates shall be reviewed at least every two (2)
20 four (4) years.

21 ~~2.3.~~ The Clark County parks, recreation and open space plan shall be reviewed
22 ~~annually at least every four (4) years~~ by the Clark County parks advisory board and
23 the board. Any amendments thereto which necessitate changes to the comprehensive
24 plan shall be reviewed in public hearings by the planning commission and the board.

25 ~~3.4.~~ In updating capital facilities plans, policies and procedures, the county must
26 determine that these updates are consistent with applicable policies and
27 implementation measures of the comprehensive plan, and in conformance with the
28 purposes and intent of the applicable interjurisdictional agreements.

3 40.610 DEVELOPMENT IMPACT FEES – GENERAL PROVISIONS

4
5 40.610.040 IMPOSITION OF IMPACT FEE

6
7 A. No building permit shall be issued for applicable development in a designated
8 service area as defined in this chapter unless the impact fee is calculated and
9 imposed pursuant to this chapter.

10
11 B. Impact fees shall be calculated at the time of building permit issuance. ~~For single-~~
12 ~~family/duplex residential subdivisions and short subdivisions hereinafter approved, the~~
13 ~~per lot impact fee shall be calculated at the time of preliminary plat or short plat~~
14 ~~approval, recorded within the Developer Covenants to Clark County, and imposed on~~
15 ~~a per lot basis at the time of building permit application. For new multifamily and~~
16 ~~nonresidential development hereafter approved, the impact fee shall be calculated at~~
17 ~~the time of site plan approval unless deferred to building permit application because~~
18 ~~the nature of the development is then not sufficiently defined to permit such~~
19 ~~calculation, and the impact fee shall be imposed at the time of building permit~~
20 ~~application. Notwithstanding the foregoing, the fee shall be recalculated for building~~
21 ~~permit applications filed more than three (3) years following the date of the applicable~~
22 ~~preliminary plat, preliminary short plat or site plan approval.~~

23
24 C. For applicable development not necessitating or having been previously granted
25 preliminary plat, preliminary short plat or site plan approval, the impact fee shall be
26 calculated and imposed at the time of building permit application.

27
28 D. For applicable development not necessitating a building permit, the impact fee shall
29 be calculated and imposed at the time of site plan approval.

30
31 E. For mobile home parks, the impact fee shall be calculated and imposed at the time
32 of site plan approval.

2
3 40.620 CALCULATION OF DEVELOPMENT IMPACT FEES

4
5 40.620.010 TRAFFIC IMPACT FEE FORMULA

6
7 The impact fee component for roads shall be calculated using the following formula:

8
9 ~~TIF = F x T x A~~

10 -
11 A. ~~“TIF” means the traffic impact component of the total development impact fee.~~

12
13 B. ~~“F” means the traffic impact fee rate per trip in dollar amounts, for each service~~
14 ~~area. Such rate shall be established in the Traffic Impact Fee Technical Program~~
15 ~~Document for each service area by estimating the cost of anticipated growth-related~~
16 ~~roadway projects divided by the projected number of growth-related trips within that~~
17 ~~service area. Between major program updates, the calculated per trip fee will be~~
18 ~~adjusted annually to account for inflation using the Engineering News Record~~
19 ~~Construction Cost Index for Seattle.~~

20
21 C. ~~“T” means the trips generated by a proposed development and calculated~~
22 ~~according to the Traffic Impact Fee Program Technical Document, incorporated herein~~
23 ~~by this reference. The calculation of “T” described by the Traffic Impact Fee Program~~
24 ~~Technical Document includes, for some retail commercial land uses, a “business~~
25 ~~enhancement factor (BEF)” adjustment, based on policy considerations. In the~~
26 ~~absence of a land use code precisely fitting the development proposal, the Public~~
27 ~~Works director or designee shall select the most similar code and may make~~
28 ~~appropriate adjustments to the trip equation applicable thereto. In selecting the~~
29 ~~appropriate land use code and in making adjustments thereto, the director shall be~~
30 ~~guided by the most recent edition of the Trip Generation Manual, Institute of~~
31 ~~Transportation Engineers.~~

32
33 D. ~~“A” means an adjustment for the portion of anticipated additional tax revenues~~
34 ~~resulting from a development which is proratable to system improvements~~
35 ~~contained in the capital facilities plan. Such adjustment for traffic impacts is~~
36 ~~determined to be fifteen percent (15%), so that “A” equals eighty five percent (85%).~~

37
38 TIF = (Size of development by Unit of Measure/Unit of Measure) X (Daily Trips per
39 Unit of Measure) X (Pass-by Factor) X (BEF) X (0.85) X (Fee per Daily Trip by
40 District)

41
42 A. “Unit of Measure” means the associated trip generation rates and other factors by
43 land use type that have been adopted in the Traffic Impact Fee Technical Document.
44 These rates are based on the Institute of Transportation Engineers Trip Generation
45 User’s Guide.

46
47 B. “Pass-by factor” means trips that are made as intermediate stops on the way from
48 an origin to a primary trip destination without a route diversion. The pass-by factor
49 can be obtained in the Institute of Transportation Engineer’s Trip Generation Manual.

C. "BEF" means Business Enhancement Factor; a multiplier of 0.70 used to reduce TIF payment for retail and service-related businesses only. Retail and service related businesses have shorter average trip lengths, reducing impacts on the existing transportation infrastructure.

D. Adjustment of 0.85 is applied for the portion of anticipated additional tax revenues resulting from a development which is pro-ratable to system improvements contained in the capital facilities plan.

3 40.630 PROCEDURES

4
5 40.630.010 IMPACT FEE REVISION

6
7 ~~A. Impact fee rates, other than park impact fees,~~ shall be adjusted periodically to
8 reflect changes in costs of land acquisition and construction, facility plan projects and
9 anticipated growth. Such adjustments shall only become effective upon adoption by
10 the board of a modification to the capital facilities plan; provided, that the capital
11 facilities plan may contain provision for automatic revision of an impact fee rate no
12 more often than annually to reflect the change in a generally recognized and
13 applicable inflation/deflation index.

14
15 ~~B. Park impact fee rates may be revised using the following process:~~

16 ~~1. The adopted Park Impact Fee Program Technical Document may be revised~~
17 ~~periodically by the Board when financial analysis establishes that there is a need for a~~
18 ~~major program update. Such adjustments shall only become effective upon adoption~~
19 ~~by the Board.~~

20 ~~2. Between major program updates, the calculated park impact fee will be adjusted~~
21 ~~annually to account for inflation/deflation using the indexing methodology described in~~
22 ~~the adopted Park Impact Fee Technical Document. Such adjustments shall only~~
23 ~~become effective upon adoption by the Board.~~

	vii. CCC 40.250.110 Urban Holding Overlay: Make it a true overlay and move to overlay section of the development code. Urban Holding 40 (UH-40) will be removed because there is no land designated urban holding that has a minimum lot size of 40 acres. Finally all references to Railroad Industrial Overlay will be removed because there is no place on the comprehensive plan map to implement this district.	Approve 6-1	Approve 3-2
	viii. CCC 40.260.157 Parks: Expand the existing neighborhood parks code section to include development standards for community and regional parks as approved by the Parks Advisory Board	Approve 6-1	Approve 3-2
