Building Inspection Request  
COVID-19 Compliance Form

On March 23, 2020, Governor Jay Inslee issued a “Stay in and Stay Healthy” Proclamation (#20-25). That Proclamation was clarified with “Construction Guidance” issued March 25, 2020. These two directives, which can be found on the Governor’s website, exempt only certain types of activity from the Governor’s Proclamation. In order for the Clark County to inspect your project, the owner of the project, or the authorized representative, must certify how the project is considered to comply with the Governor’s Proclamation, sign and date this form, and return it to building@clark.wa.gov before the inspection can continue, otherwise no inspection will occur.

1) Identify the specific provisions of the Governor’s Proclamation 20-25 and/or the 3/25 guidance letter that you believe cover the specific construction activity to be inspected:
___________________________________________________________________________________________________________
___________________________________________________________________________________________________________
___________________________________________________________________________________________________________
___________________________________________________________________________________________________________
2) Explain how the specific construction activity meets the specific provisions of the Governor’s Proclamation 20-25 and/or the 3/25 Guidance:
___________________________________________________________________________________________________________
___________________________________________________________________________________________________________
___________________________________________________________________________________________________________
___________________________________________________________________________________________________________

3) *Inspections requested: ______________________________________________________________
___________________________________________________________________________________________________________
___________________________________________________________________________________________________________

By signing this form, I certify that the construction project to be inspected, as well as the specific construction activity, meets the provisions of the Governor’s Emergency Proclamation (as stated above) and that only essential employees are present doing work to support authorized critical infrastructure.

I further certify that all social distancing and sanitation requirements are in place and being followed, and that any future requirements or CDC recommendations will be complied with as well. In addition, I certify that during any inspection, I will follow any additional social distancing instructions provided by the county inspector.

*Name: ________________________________ *Signature: ____________________________ Title: ____________________________

*Phone number: ____________________________ *Email: ____________________________ *Date: ______________

*Permit number: ____________________________

*Required information

Approved inspections will be scheduled for next business day unless otherwise communicated.
