NOTES AND INSTRUCTIONS

- The purpose of this checklist is to help define a complete submittal package for the scope of work. Plan review will not take place until a complete package is submitted. Deferred submittal accepted.
- This checklist can be used for all commercial construction projects, including new construction, additions, alterations and tenant improvements.
- For complex projects, applicants should use the "location" space to note the item's location and page number from the plans or the specification book.
- It is not necessary to duplicate submittal information, even if it is asked for in multiple sections.
- In the checklist, "Required" means that the applicant shall provide this information for plan review.
- In the checklist, "PR" means the information is required by the plans reviewer.
- In the checklist, "P" means the information is provided for the plan review.
- In the checklist, "NA" means that the information does not apply.
- Choose only those sections of the checklist that apply to your scope of work. Section 1.0, "General Project Data," must be included with each project submitted.

PRE-SUBMITTAL PROCESS

An applicant shall request a pre-submittal meeting with representatives of the jurisdiction in which the project will be built. The meeting may take place during the conceptual stage; schematic stage; or when applicant has completed plans for submittal.

Plans may not be submitted without the required pre-submittal meeting to review the application checklist to verify completeness of proposed plans related to the scope of the project.
