Thanks, the overlay of the relevant exhibit seemed to show a change that crosses the line, but when looking at it further I think there was no change.

Hello Mr. Robinson,

Thank you for your inquiry.

I have looked up your property to see how the county proposal impacts it.

I am confirming that no shoreline map changes are proposed that would affect your property. There are some shoreline designation changes on the Plas Newydd farm property, due to the detailed mapping work they have done on their own property, but those changes do not extend to your

property.

Since your property is located along the Lewis River, much of your property does have a Rural Conservancy Resource Land shoreline designation. That designation has been on your property for many years, so it is nothing new.

Please let me know if I can provide more information or answer additional questions. I have also copied our shoreline administrator on this email in case you have any additional questions he can help answer.

Thank you again for reaching out.

Regards,  
Jenna

I own Pekin Ferry which abuts the east edge of Plas Newydd farm. It appears to me that this plan proposes to re designate my property as Rural Conservancy Resource Land. Is that true? Is it intentional? If so why?
