

Amendments to the Arterial Atlas

Arterial Atlas amendments shall be accomplished through the changes initiated and approved by the county. Arterial Atlas Amendments are Type IV processes as legislative decisions with public hearings to the Planning Commission and Board of County Councilors. These changes to the Arterial Atlas may occur as part of the periodic review update, consistent with RCW 36.70A.130, or as part of annual changes to the plan once per calendar year, or as part of emergency amendments which may be brought forward at any time, subject to applicable provisions. Arterial Atlas amendments may be approved only when all of the provisions of CCC 40.510.040(O) are met.
