The journey of your child’s early years includes many developmental milestones for how he or she plays, learns, speaks, and acts.

Look inside to learn what to look for in your child. Talk with your child’s doctor about these milestones.

Not reaching these milestones, or reaching them much later than other children, could be a sign of a developmental delay.

You Know Your Child Best.
If you are concerned about your child’s development, talk to your child’s doctor.

If you or the doctor is still concerned, ask the doctor for a referral to a specialist and call 1-800-CDC-INFO to learn how to get connected with your state’s early childhood system to get the help your child might need.

Don’t Wait.
Acting early can make a real difference!

For more information about your child’s development and what to do if you have a concern, visit:

www.cdc.gov/ActEarly

Or call: 1-800-CDC-INFO
to request a FREE “Learn the Signs. Act Early.” Parent Kit or to get help finding resources in your area.

Developmental milestones adapted from Caring for Your Baby and Young Child: Birth to Age 5 (AAP, 2009) and Bright Futures: Guidelines for Health Supervision of Infants, Children, and Adolescents (AAP, 2008).
Your Child’s Early Development is a Journey

Check off the milestones your child has reached and share your child’s progress with the doctor at every visit.

**6 MONTHS**
- Copies sounds
- Begins to sit without support
- Likes to play with others, especially parents
- Responds to own name
- Strings vowels together when babbling (“ah,” “eh,” “oh”)
- Uses simple gestures such as shaking head for “no” or waving “bye bye”
- Copies gestures

**12 MONTHS (1 YEAR)**
- Responds to simple spoken requests
- Says “mama” and “dada”
- Pulls up to stand

**18 MONTHS (1½ YEARS)**
- Copies adults and friends (like running when other children run)
- Carries on a conversation using 2 to 3 sentences
- Plays make-believe with dolls, animals, and people
- Shows affection for friends without prompting
- Hops and stands on one foot for up to 2 seconds
- Would rather play with other children than alone
- Tells stories
- Draws a person with 2 to 4 body parts
- Plays cooperatively

**2 YEARS**
- Follows simple instructions
- Kicks a ball
- Says sentences with 2 to 4 words
- Gets excited when with other children
- Says several single words
- Walks alone
- Knows what ordinary things are for; for example, telephone, brush, spoon
- Plays simple pretend such as feeding a doll
- Points to others something interesting
- Points to things or pictures when they’re named

**3 YEARS**
- Copies adults and friends (like running when other children run)
- Carries on a conversation using 2 to 3 sentences
- Plays make-believe with dolls, animals, and people
- Shows affection for friends without prompting
- Hops and stands on one foot for up to 2 seconds
- Would rather play with other children than alone
- Tells stories
- Draws a person with 2 to 4 body parts
- Plays cooperatively

**4 YEARS**
- Copies adults and friends (like running when other children run)
- Carries on a conversation using 2 to 3 sentences
- Plays make-believe with dolls, animals, and people
- Shows affection for friends without prompting
- Hops and stands on one foot for up to 2 seconds
- Would rather play with other children than alone
- Tells stories
- Draws a person with 2 to 4 body parts
- Plays cooperatively

These are just a few of many important milestones to look for. For more complete checklists by age visit [www.cdc.gov/ActEarly](http://www.cdc.gov/ActEarly) or call 1-800-CDC-INFO.
