

# FIXIT

## Today's Service Station

The Fixit includes all the tools necessary to perform basic bike repairs and maintenance, from changing a flat to adjusting brakes and derailleurs. The tools and air pump are securely attached to the stand with stainless steel cables and tamper-proof fasteners. Hanging the bike from the hanger arms allows the pedals and wheels to spin freely while making adjustments.

## CYCLE AID STATION

The Cycle Aid Station puts the tools where the people need them – on the trails, near the streets and in the bike rooms. With eight common bicycle tools permanently tethered to a bike holder and designed to be placed either inside or outside, the Cycle Aid Station will meet the spur-of-the-moment maintenance and repair needs that keep riders on their ride.

### Tools Included:

### Specifications

Model #	Description	Type of Mount	weight	length	width	height	Space Requirement
8821	With Tools	Flange Mount	43 lbs	8.5"	16"	49.5"	105" x 40"

**Note: Saris Parking Systems representatives can assist with custom layout and spacing to meet your room dimensions and desired bike capacity.**

# CYCLE AIR.HS INDOOR

The Cycle Air Station, Indoor, is a perfect shared-use bike pump for inside installation. It is ideal for bike rooms and parking areas. A high quality, solid stainless steel piston rod, alloy handle and smash proof gauge cover provide maximum vandal resistance and durability. Heavy duty, cut resistant hose and security fittings hold a replaceable pump head that handles both Presta and Schrader valves with ease. The Cycle Air, Indoor, has an optional tool holder that includes two tire levers and an adjustable wrench, tethered by stainless steel aircraft cable. A perfect compliment to the Cycle Aid Station to make a true one-stop spot for outdoor bike maintenance and ride preparation.

Street/Trail Setback Minimum: See figure 1 for dimensions

Figure 1: Grey area is concrete minimum

**DO NOT THROW AWAY THE PENTA SOCKET AFTER COMPLETING THE INSTALLATION. YOU WILL NEED IT TO REMOVE THE EQUIPMENT IF THAT IS NECESSARY.**

\*\*All manual pumps also come with a tube of lubrication for the pump's piston rod. See Appendix A for recommended preventative maintenance schedule.

1. The Deluxe Public work stand ships in two separate boxes. If you purchased a pump, it will be in another separate box. Remove all parts from their boxes.

2. If your installation does not include a pump, skip to step 8. Tighten the threaded elbow fitting and the external hose onto the repair stand using a 14mm (9/16") wrench.

3. Connect the internal air hose to the elbow fitting by pressing it until it bottoms out.

# Public Bike Repair

## Features

- Products include:
  - Public work stand with optional tool attachments
  - Public bike pump
  - High security public bike pump
  - Electric bike pump
- Combine work stands with air pumps to create full public work stations for cyclists
- Tool attachments include: Hex key set, Torx T-25, steel core tire levers (2), adjustable wrench, 3/15mm cone wrench and Phillips & standard screwdrivers
- Available in several finish options
- Custom options are available
- Easy installation
- Available as surface or in-ground mounted units
- A great way to show support of cycling in your area

Provide full public work stations for cyclists

Optional tool attachments

High security options

Work stands and air pumps

## Public Bike Repair Stand

This bicycle repair stand by Bike Fixtation© is designed and built for any public location or urban landscape. It provides a stable mount for any bike with a range of eight tools to conveniently make adjustments and repairs on the spot.

It is designed to be bolted into a concrete surface for stability and security and its reinforced construction makes it resilient to frequent public use.

Powder coating ensures that the stands are able to endure high levels of wear and tear as well as providing a sleek finish. Instruction stickers on the stand quickly indicate how to position your bike.

This product is ideal for installing at any cycle parking facility including busy high profile city centres. It is a great accompaniment to our Public Bike Pump.

### Technical Specification

- Universal bike mounting - hang by seat
- Eight bicycle tools included, tethered by aircraft cable
- Unique I-beam design eliminates possibility of locking a bike to it
- TIG welded, thick-walled DOM tubing and laser cut steel construction
- UV resistant powder coating prevents corrosion
- Custom colours available:

### Dimensions

- Dimensions (metric): 125.7 cm H x 50.8 cm W x 21.6 cm D

# Deluxe Public Work Stand

- Tools securely attach by retractable braided stainless steel cable
- Large surface area for custom branding/signage; optional Bike Fixtation branding as shown is available by request
- Designed to directly interface with all three of Bike Fixtation's manual pumps and Wheel Chock attachments (sold separately)
- Long hose provides wide range without touching the ground
- Impact and UV resistant front won't show wear from pedal strikes
- ADA-compliant design
