Learn about **Elder Abuse**

Elder abuse and neglect is a significant public health and criminal justice issue. Nationally, at least 5 percent of older adults are subjected to abuse, neglect or exploitation each year. Our community's response to the problem was greatly enhanced when the Clark County Elder Justice Center opened in 2011.

Vancouver Police Detective Mike Day will speak about the Clark County Elder Justice Center and how to help prevent abuse, neglect and exploitation of vulnerable adults.
