

Guest Speaker  
Becky Steckler

## Commission on Aging Speaker Series

Join us Nov. 13, 2018

4:30 – 6:00 p.m.

Public Service Center

1300 Franklin Street, Vancouver

## Learn about Emerging Technologies

Advances in emerging technologies - such as autonomous vehicles (AV's), E-commerce, and the sharing economy - are having profound effects not only on how we live, move, and spend our time in cities, but also on urban form and development itself. These new technologies are changing how people and goods move, and this has implications for the layout of communities and the places we spend our time.

Becky Steckler, Program Manager for Urbanism Next at the University of Oregon will discuss emerging technologies and how the impacts on our communities will change how people young and old move around.
